### Preliminary Budget Presented

## Tax Rate Is Tentatively Set At 57 Mills, Same As In '53

Pentiction's tax rate will, unless council thinking changes during the next two weeks, remain at 57 mills, the figure set last year.

This was revealed at Monday night's council meeting when City Treasurer H. W. Cooper, and Finance Chairman Alderman F. C. Christian tabled a preliminary budget showing city expenditures for the coming year.

The tax rate, based upon an anticipated 93 percent of possible collections, will provide considerably more revenue than was accrued last year, due to the growth of the city.

### TWO SECTIONS

The preliminary budget is divided into two sections, one covering the "number one priority" list, items that are hardly likely to be altered to any degree, and the other, the numbers two and three priority items, which are in the "if and maybe" class. Both these totals cover expenditures by city departments only, and are exclusive of the amounts already earmarked for parks and schools.

Total amount in the number one priority column is \$1,760,780. Difference between this and the amount including the two and three priority items is \$162,833. It is quite possible that some of the items in this extended list will be carried out this year, but they will only be feasible if financing is found possible.

The estimated total receipts from the 57 mill rate are quoted as \$1,621,562. To this amount is added city receipts from "other sources", including grants, and earnings from departments. A final analysis of these, together with the finalizing of the budget will be given within the next few days, as soon as council has officially fixed the mill rate and amounts to departments.

### INCREASE IN REVENUE

In presenting his report Monday night, Mr. Cooper pointed out that revenue is up an estimated \$100,000 and that the city "can carry out an extensive program within this scope", and therefore no bond issues or money bylaws are anticipated to be necessary during 1954.

Council was urged to complete its budget before it meets officially again April 5 (March 31 is a fifth Monday, and therefore there is no statutory meeting because of the day). It is stated that the city has no official funds to carry on past April 1, deadline for the tentative and pre-budget financing.

### EARLY BUDGET

The treasurer's report states in its prologue, "This year we have adopted certain techniques with a view to handing down the final budget at the earliest date possible."

"Although we are ahead of previous years, it is still possible to achieve the earliest date, approximately March 31." By doing so, it is indicated, there would be a speed up in many civic projects, which may result in considerable savings.

During the next two weeks departmental heads will meet with committee chairmen, and council will also burn more than its share of midnight oil, in an effort to pare down some of the

(Continued on Page 8)

## LES BOYER TO HEAD SQUARE DANCING EVENT

The square dancing jamboree, planned as a sparkling new innovation to the Pentiction Peach Festival celebration, is growing to huge proportions on paper as the committee begins making arrangements for the big venture.

A meeting of the Peach Festival committee last night disclosed that Les Boyer, president of the Folk Dance Federation of the State of Washington, has been engaged to manage and direct the event. It will be known as the international square dancing jamboree and it is expected that 2,000 dancers from out of town will participate.

Mr. Boyer, of Okanagan, Washington, is well known in local square dancing groups as he is in Pentiction once each week to direct the local club.

He told the festival group that 20 callers would be engaged and the arrangements for music will be his responsibility.

From the local square dancing club, the Peach City Promenaders, Mr. Boyer will form committees to help organize the dancing.

On Saturday, May 22, the Promenaders will hold a jamboree in the arena to stimulate interest in square dancing and the Peach Festival committee is giving its support. They hope to hold a number of dancing classes throughout the summer.

WALLACE MUTCH

Wallace Mutch, long-time resident of this city, is to be the president of the Pentiction Rotary Club, according to election results announced after the meeting here on Monday. He will be installed in mid-summer, to succeed H. A. Nicholson, current head of the organization. In other results of Monday's balloting, A. K. Bent was chosen vice-president, and members of the executive will be George Carter, A. J. Cowie, Frank Bowfield, and Dr. T. P. Parmley. The club's secretary-treasurer is C. W. Lintott. The balance of this week's luncheon session comprised a motion picture describing Little League Baseball activities, and a brief explanatory address on the same subject by Dr. Gordon Garrioch.

### Conciliation Sought In Wage Negotiations

Aid of a conciliation officer has been requested by members of the Federation of Fruit and Vegetable Workers' Unions (FVU) and industry representatives, in an effort to bring about an agreement on negotiations.

Negotiations were deadlocked when industry representatives accepted a "hold-the-line" policy regarding an advance in wages.

"ENCHANTINGLY FEMININE AND GRACIOUSLY LOVELY", can be applied to the attractive trio pictured above who will be among a bevy of models appearing next Wednesday evening in "Prelude to Spring", the Junior Hospital Auxiliary's annual style presentation, in the High School Auditorium, with fashions from the Hudson's Bay Company. The view windows in Pentiction's new \$1,500,000 hospital provide a pleasing setting for the group, reading from left to right, Mrs. R. V. White, beautifully poised, wearing a gown of emerald green nylon net over taffeta; Mrs. L. T. Roth in a waltz length frock of aqua nylon net over Shantung tissue accented by self-colored velvet corsage at the bodice top, and Mrs. N. M. Armstrong, picturesque in a mauve colored creation stressing the over drape with interest centred in back details. Full story of the fashion parade will be found on the Women's Page of this issue.

### Peach Festival Facts, Opinions

## Folk Festival Plan Wins Wide Support

By VINCE DUGGAN

Since 1948 a mood of celebration has built up in Pentiction each summer culminating in the Peach Festival carnival. From a brave start, born of the minds of men and women with thoughts of today and visions of tomorrow, the festival has become almost legendary in that short span of time.

It's been a big boost for this city. People of Spokane, and Vancouver, Calgary and way points, nowadays exclaim, "Oh yes, Pentiction—the city of peaches and beaches—the place where you have that peach festival."

### Festival Should Pay Its Way

Of course, the festival has not done it all, but it's played a healthy part in the map of Pentiction. It's on the map of people's minds.

But the festival is sick financially, and needs a shot in the arm. "What is wrong?" officials ask, not unmindful of the fact that private citizens are backing a \$10,000 deficit at the bank. Aware also of the work done at Queen's Park, of back-breaking, nail-driving, hand-bisecting effort to provide a festival home, done by private citizens interested in promoting this community.

That's one of the reasons why the city is being asked for a grant of \$2,500 this year with an undertaking to underwrite the balance of the debt.

But there's another reason for concern and that is: why can't the festival stand on its own

### Publicity Value Is Cited

It is anticipated that up to 2,000 dancers, mostly from B.C. and the state of Washington, would participate. Wearing of western style costumes, possibly a beard-growing contest, dancing contests, and the same for fiddlers, and square dancers is in the cards, something that could, in the words of festival president Tommy Walker, "be woven into a true Mardi Gras atmosphere."

The Herald is interested in public reaction to the Peach Festival as will be shown later in this article.

But first let's take a look at some facts and figures, Jack Pettley, who has headed the royal party for years, says, "money couldn't buy the publicity value. The color page in the Vancouver Province, as an example, is a \$1200 venture. All three Vancouver dailies and the radio stations co-operate 100 percent."

"And that's only part of the story. We get similar treatment throughout B.C., Alberta and the state of Washington. Last year, carried the name of Pentiction far and wide, to the Calgary Stampede, the Miss Canada contest at Hamilton, to Seattle and Long Beach."

### Belongs To This Community

In the debt column here's the overall six-year picture. Rodeo, \$8,637.03; parade, \$5,322.10; advertising, \$13,102.20; management, \$10,199.97; entertainment, \$1,776.40; Queen's Park construction, \$11,517.39.

On the happier side of the ledger, money was made on dances, the night show, midway, talent show, concessions agricultural show and sale of buttons.

In their brief to City Council, festival officials said: It is the earnest desire and hope of the Peach Festival Association that this city will accept the festival as an event that belongs

### Red Cross Drive Ends Next Week

Total of \$1900 has already been turned in as the annual Red Cross campaign for funds enters its final week in the Pentiction district, but complete returns are, as yet, unavailable from any section, business or residential.

"The reception seems to be better than in some years," said campaign chairman Jack Pettley, "and we are confident our objective of \$7,500 will be reached."

Mr. Pettley also expressed hope that all canvassers will be able to complete canvass of their districts by the end of this week and the advised residents who have not yet been contacted that a canvasser will call.

## CONVENTIONS BIG TOURIST POTENTIAL

Support of the current drive for Pentiction Tourist Association funds is continuing at a high level. John Allison, campaign manager, reports as the program moves into the final stages.

At the present time, 75 percent of the prospective contributors, the business and professional people of Pentiction, have been solicited, the association disclosed. Mr. Allison stated that if the canvass is to reach a successful conclusion, the remaining 25 percent must contribute in substantial measure and he expressed confidence that the trend established early in the campaign will remain firm.

"It is increasingly apparent," he said, "that to obtain our full share of the tourist business, Pentiction must not only be advertised as a tourist centre but also widely publicized as a convention city." This is another approach advanced by the Tourist Association in its program to attract more visitors here during the "off" season. Greater effort this year will be directed toward attracting visitors here during

## APPLES UNDER DISCUSSION IN CURRENT DEAL

While it is still too early to expect clear-cut comment, it is obvious that there is now an air of what might be called "guarded optimism" in Okanagan fruit circles regarding the prospects of the disposal of some of the valley's apples to the Old Country.

"I'm rather hopeful," was the way J. B. Lander, B.C. Tree Fruits sales head, summed up his outlook, in discussing the situation, with the Pentiction Herald yesterday.

"There are straws in the wind," was another way he put it.

While attending the Canadian Horticultural Council sessions recently in the east, Mr. Lander, with other valley leaders, felt that "chances for such export definitely could not be ruled out." This was his reaction to conferences with various governmental spokesmen, who have been closely following developments. Such an attitude contrasted very sharply with what confronted the valley a year ago. At that time, chance for export was regarded with a complete and definite "no." Now, in the last few days, there have been more hopeful signs.

"It would be a wonderful thing for us," says Mr. Lander. "To be able to dispose of some portion of our apples in a re-opening of this U.K. market, so long closed, would indeed be a gladdening news."

The predictions are being made that there might be a five million dollar slice of the dollars in U.K. markets in some deal to be made with Canadian producers.

On the eve of the Canada-U.S. trade discussions in Washington, the British Treasury has announced another deal, the U.K. government accepting a gift of further food supplies from U.S. surpluses. The deal deserves Canadian attention for two reasons:

First, because disposal of U.S. surpluses is expected to be the other subject of discussion at the Canadian-U.S. Economic Committee's first monthly meeting.

Second, because it raises the possibility of the U.K. making equivalent purchases from Canada to balance the U.S. gift.

The latest deal between the U.S. and U.K. involves \$5 million worth of fresh and canned fruit. Half is to be spent on canned apricots and peaches; another \$1.5 million on fresh oranges and \$1 million on fresh and canned grapefruit.

It brings total U.S. surplus commodities given to Britain to \$66.5 million. A further \$5 million is made under Section 550 of the Mutual Security Act which authorizes "sale" of surpluses for local currencies. In this case, the sterling equivalent of the price of imported goods is transferred to the U.K. budget where it will appear as U.S. aid for part of the defense effort.

Section 550 of the Mutual Security Act provides that U.S. surpluses disposed of in this way shall not interfere with normal channels of commercial trade. This has naturally proved very difficult to determine.

In the current case of fruits, the U.K. government is now discussing with the Canadian government the possibility of purchasing Canadian canned fruits to balance the U.S. gift and prove that commercial channels are not being supplanted.

The situation is further complicated by the next deal (Continued on Page 2)

PILOT OFFICER GLEN BAWTENHEIMER, RCAF, son of Mrs. H. Bawtenheimer, 101 Bassett street, is on leave in Pentiction following completion of an airforce survival course in the Arctic. He will report to Chatham, New Brunswick in mid-April to commence flying training of F86 Sabre jet aircraft. The above photo, showing Pilot Officer Bawtenheimer (right) receiving his wings from Squadron Leader Edwards, was taken at Portage la Prairie, Manitoba, RCAF station, several months ago. Glen graduated from Pentiction high school in 1952 and lived in Revelstoke for four years during the war.

### Board Of Trade Venture

## B. C. Products In Feature Show

Stage is all but set for the B.C. Products Bureau Show, jointly sponsored by Pentiction and Vancouver Boards of Trade, and scheduled for the Armoueries, next Wednesday.

A new note is being injected with displays of Okanagan manufactured goods joining the 50-odd items from other parts of the province.

Committee in the Board of Trade, headed by J. W. Lawrence, H. K. Whimster and Marvin Syer, promises an interesting day for those who view the show. Products being brought here by the B.C. Bureau will occupy 200 lineal feet of tables on either side of the Armoueries while the space directly in front of the stage has been reserved for Okanagan goods.

### INDUSTRIAL FILM

The morning will be devoted to Junior high school students who are invited to view not only the display but an industrial film, "Johnny's Heritage," as well. The same program is planned for senior students in the afternoon and there is no charge in either case.

Evening show commences at 7:30 (Continued on Page 5)

## Operatic Tenor Ends Concert Series

By E. M. M.

Last Friday evening in the high school auditorium Eugene Conley from the Metropolitan Opera Company, accompanied by Marcel Frank at the piano, gave the last concert in the present series of South Okanagan Community concerts.

Mr. Conley is essentially an operatic singer and not a concert artist for although his operatic arias were superb his concert songs with the exception of two or three were not up to standard for a professional singer of Mr. Conley's calibre. Although he was at a disadvantage insofar as there was no scenery, no gorgeous costumes, no orchestra, in fact none of the trappings of the opera house, once Mr. Conley began his arias the audience was no longer looking at a grey curtain stage containing two men and a piano, but saw the bleak little studio in Paris and heard Rudolf the poet sing his famous aria "Your tiny hand is frozen" to Mimi. Such was the magic of Mr. Conley's voice and artistry.

It was a great pity that the whole program could not have been made up of operatic arias for he certainly excelled in these and his beautiful singing of them made the rest of his program sound over less well, as in the concert song groups, on the whole neither the choice of song nor the technique displayed was good.

It is scheduling of a program

EUGENE CONLEY

whole neither the choice of song nor the technique displayed was good.

## Pretty Nuptials In Keremeos United Church

KEREMEOS — On Saturday afternoon, March 6, at three o'clock a pretty wedding was solemnized in Keremeos United Church when Helen Lousenberg became the bride of David Webster with Rev. L. L. Scheutze officiating.

The bride, gowned in misty white nylon net posed over satin, with a fitted lace jacket featuring tiny buttons to the waist and lily-point sleeves entered the church to the strains of the wedding march on the arm of a family friend, O. F. Maisonneville, of Sointula. Her three-quarter length veil of lace fell gracefully from a lace coronet. The bride's bouquet of pink and white carnations was carried on a white Bible, the gift of the groom.

The maid of honor was the bride's identical twin sister, Miss Martha Lousenberg, who chose for her frock a becoming dress of nile green nylon net and lace styled with a full ballerina-length skirt and lace jacket. The groom's sister, Miss Edith Webster, was bridesmaid frocked in a pretty shade of mauve taffeta and lace featuring a ballerina-length net skirt with a fitted bodice with cap sleeves and jeweled neckline. Both attendants wore identical bandeaux of flowers and carried spring bouquets of daffodils and pussy-willows.

Jack Kempf of Cawston was best man, and J. Burns, of Penticton, and Wilson Clifton, of Keremeos, were ushers.

Following the pretty ceremony a reception was held in the Elks' Home, where a large number of guests were entertained at a wedding banquet. Mr. Burns acted as toastmaster; J. A. Mackenzie, manager of the local branch of the Bank of Commerce, the staff of which the bride is a member, proposed the toast to the bride, and Rev. L. L. Scheutze proposed a toast to the young couple's new home. Congratulatory telegrams from many relatives and friends were read.

For the wedding trip the bride wore a navy wool gabardine suit and top coat and white accessories. Upon their return, Mr. and Mrs. Webster will reside in Keremeos. Love wedding gifts bore testimony to the popularity of the happy young couple.

Out of town guests included Mr. and Mrs. Jim Burns of Penticton, O. F. Maisonneville and Miss Martha Lousenberg, of Sointula, Mr. and Mrs. Hayward Torries, of Kamloops, and Mr. and Mrs. Freeman Crowthers, of Hedley.

## Mrs. R. S. Hollett President of UCT Ladies' Auxiliary

Mrs. R. S. Hollett was installed president of the Ladies' Auxiliary Okanagan Council United Commercial Travelers, at the March meeting held on Saturday evening at the home of Mrs. William MacAdams, Manor Park Drive.

Thirty-one were present for the installation of the new slate of officers among whom were Mrs. Samuel Orr, vice-president; Mrs. Gordon Gouley, secretary; Mrs. Lester Gills, treasurer and director; Mrs. M. E. Giddy, immediate past president of the L.A.; Mrs. William Seright and Mrs. Ed. McDonald. Mrs. W. P. Suter was installed publicity convener.

Major discussions during the business of the meeting centred around the serving of light refreshments to patients attending the cancer clinic held in the outpatient section of the Penticton Hospital. Mrs. E. E. Johnson was appointed convener of this worthy monthly undertaking by the auxiliary.

Two new members, Mrs. Maurice MacNair and Mrs. Gordon Lake, were welcomed to the meeting and a farewell gift was presented to Mrs. David Frost, who with Mr. Frost, is leaving Penticton to take up residence in Kelowna.

Mrs. Suter will be hostess to the April meeting of the UCT auxiliary.

Following adjournment of the Saturday evening session, the members joined the members of the UCT on board the Scammon for an evening of dancing and an interesting program, featuring a skit by members of both groups. Refreshments were served to conclude a very enjoyable event.

SUMMERLAND — Mrs. J. E. O'Mahony has been re-elected to the provincial board of directors of the B.C. division, Canadian Cancer Society, and is the second vice-president of the provincial board.

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

## Apples

(Continued from Page One)

contemplated between Britain and the U.S. which is in other fruits, particularly apples, six million dollars allotted to the U.K. by the U.S. government has still to be disposed of and only commodities now suggested are apples and other fruits.

The question of equivalent purchases from Canada — to be paid for in dollars — is now being considered in official British circles. Apples and certain kinds of canned fruits are under discussion.

Food generally is not likely to be put on list of goods to be admitted from dollar sources in the near future, though apples may reach that status within the next few years. This makes it particularly important for Canadian growers to have their product kept in front of the British public, instead of being completely supplanted by giveaway U.S. apples.

## FIRE CALLS

Penticton firefighters answered four calls during the past week. They responded to alarms for a grass fire at Redlands subdivision and a chimney fire on Ellis street, last Sunday. There were two calls yesterday, one to Brett's Sport Shop for an overheated oil stove and the other a chimney fire at 1000 Main street. There was no damage.

# Penticton Herald Editorials

## In Cold Type

We have been reminded, just recently, of the value of cold type and newspaper files.

It has to do with this much-discussed Kelowna bridge issue, and the fact that a former minister of public works is now dead, and therefore unavailable for corroboratory testimony.

But what he had to say once—indeed more than once—is still preserved, and is very definitely on the record.

Premier Bennett has been requested to come to Penticton at some convenient time and to speak on this question.

If and when he does come here, we hope Mr. Bennett will lay emphasis on the fact that he has not been alone in looking with favor on the bridge idea. So much politics has been injected into the reaction to this proposal, as made recently, that it is wise to recall the fact, and it is a fact, that the late Hon. E. C. Carson, when minister of public works in a different and earlier government, made the declaration that a bridge must eventually replace the ferries.

He made this comment when speaking before a joint meeting of the city council, board of trade, and junior chamber of commerce in this city on the evening of February 5, 1951.

The Penticton Herald carried extensive front-page coverage of his speech, and it is perhaps a very good thing. For

at a recent local meeting one speaker offered the vigorous comment that Mr. Carson, whom he characterized as one of the best public works ministers the province ever had, was against the bridge idea. Since the minister is now dead, it may be thought that his views can be reconstructed at will. Hence the virtue in cold type.

For at that meeting here, Mr. Carson declared, "we cannot do away with the ferries at the present time, but eventually we must replace them with a bridge. The ferries are incapable of carrying traffic at peak periods. The only answer to that problem is bridges. At present there are one-and-a-half million dollars invested in ferries and landings on Okanagan Lake. We must get away from the use of ferries on the lake and elsewhere wherever possible."

It is not a crucial point. But its clarification will at least emphasize one point, and that is that there is too much of a tendency to berate Mr. Bennett for playing politics on the bridge issue—when actually, and in all fairness to him, he is carrying on a policy recommended from before he took office.

Mr. Carson, when the responsible minister, spoke here on the question at that earlier date. We think Mr. Bennett will be wise to lay the facts as he sees them before us too.

## A Lesson To Remember

Whatever became of the call to socialize all hydro-electric power in this province?

At the moment, the call has sunk to the merest whisper.

One reason for this is in the revelation of the dreadful farce played out to the last curtain by the B.C. Power Commission over the Whatshan disaster. Mr. Justice Clynne's report, that negligence was to blame, gives the final and official answer to everything. But long since the

whole fantastic nonsense was laid bare. Fast-growing B.C. is one of the best-powered regions on the continent, but it is thanks to a dynamic momentum achieved by certain companies, not by the government.

We can't imagine Whatshan happening within the supervision of enterprising private enterprise.

But we can fear more of the same unless the lesson of Whatshan is driven home, and remembered.

## Let's Have A Roll Call

Now that our members of parliament have decided to reward themselves with nicely inflated salaries, there can be a good deal of emphasis to "the need for a roll call," as it was worded the other day in the Orillia "Packet and Times".

This editorial, to which we give our whole-hearted endorsement, pointed out that in the 13 votes recorded since Parliament reassembled, the attendance has ranged from 134 to 213 of the 261 members. In other words, absenteeism has ranged from 18 to 49 percent.

And this is happening at a time when a majority of the members have declared that being a member of Parliament is

now a full-time job which justifies the doubling of their pay. One would think that while the pay increase was being discussed that most of them would have a sufficiently guilty conscience to attend sessions regularly, even if they relaxed into their old ways once the bill was safely through the House.

In every other administrative body that we know anything about, there is a roll call or some similar check made of attendance of members. We are inclined to think that it is well past time when the House of Commons should have a roll call each day and the figures for attendance of each member should be made public after each session, and certainly before every election.

## It's High Time

Barron's weekly takes the British press to task for making too much fuss about McCarthy. The voice of Republican Wall Street argues that Senator McCarthy is "no incipient Hitler," or even an incipient Huey Long, but merely a little man "who is becoming a public nuisance and is wasting public time."

Maybe that is true, but the press in British and other countries, have reason to remember that some of the world's greatest trouble makers were also little men making a nuisance of themselves in their early days. And the Barron's

of those times were also going to put them in their places, but somehow never got round to it.

A Canadian publication, the Financial Post, has stressed that when a demagogue smears and browbeats all and sundry, forces a U.S. Secretary of State to make impossible pledges and finally defies the U.S. President and insults America's best friends and allies, it is no wonder the British press gets alarmed. And it is high time that the U.S. press, including Barron's, showed some alarm, too.

## Little Enough

We have joined editorially in upbraiding members of parliament who have voted themselves really substantial pay and then been none too conscientious in attending the sessions of parliament. The stricture does not apply to our own member. It does not apply to the great majority. But it applies to some. And it could apply to many.

But there is one kind of public servant who finds it very hard, if not impossible, to dodge his heavy round of duties. He is too close to those who elected him. He is the mayor or alderman in an average busy city. And that is why we have always favored a better deal for such a person, a better counterbalance to the

sacrifice of time and money which he must give his fellow townsmen.

As a matter of hard fact, solution to many municipal ills cannot be expected unless and until there is better pay for municipal leaders.

A delegation representing the Union of B.C. Municipalities this week has been conferring with a house legislative committee at Victoria asking that there be better payment. In a city of this size, the sum would be \$8,000 for the mayor and \$750 for aldermen, annually. It is little enough when we remember that, as in the local case, a budget of not far from two million dollars is being administered.

past. When it is considered that on the smallest car the 10 per cent sales tax plus 15 per cent excise tax amounts to about \$400, it appears to be quite out of line with justification. Automobiles are no longer a luxury. They are essential to everyday life and business.

## Letters To The Editor

Letters to the editor must carry the name and address of the sender. Pen names will be accepted for publication but preference will be given to letters published over the writer's own name.

Editor of Penticton Herald.

WHY

Dear Sir: Reading various editorials, Mr. Matson's public remarks evidently have been considered rude. But in view of past records of activities of our city officials one wonders if such procedure should not have taken place before.

Through your columns I would like to ask the following questions: Why was it that after \$530,000 had been borrowed three debentures, and a company from other parts was given contract to work on our streets and orchard roads, that after working on them (said sum vanishing) that our roads were worse than when they started?

Also why was it that said company was paid \$6674 for marking like a soldier because they lost a few days time through stormy weather one winter? That loan of \$530,000 and some odd dollars, plus \$600,000 or so collected in city taxes that year amounted to over \$1,000,000. Yet when Mr. Rathbun took office city coffers were depleted, we were told.

Eight years ago Penticton boasted of a very fine garbage truck (cost \$10,000) manned by a very efficient crew of city workmen. Why was this garbage collection given by contract to a city firm? Surely it would be cheaper to hire men.

Also why was our expensive and modern garbage truck sold to said concern? And for what price? Now another firm of truckers have the garbage collection contract. Did they buy out good city garbage dump?

Is it worn out, or what? Our former garbage collection was done in a very sanitary manner by men in clean uniforms. All garbage was immediately hoisted in an air tight compartment. Surely less danger of disease. Why not the same efficiency and sanitation now by companies who, no doubt operate at a profit?

Lastly why such exorbitant taxes? Ordinary six room houses on a city lot here yield the lucrative sum of approximately \$150.00 per year to city coffers. On top of that why does each householder hooking onto the new sewer, have to pay \$57.50 besides exorbitant taxes, when we have already paid a small yearly sum for years, over and above our regular taxes for sewers?

I am not passing my opinion as to whether Mr. Matson, our worthy mayor's remarks were right or wrong. But one wonders in view of existing conditions re taxes, etc., here in Penticton, if perhaps we might have been saved many dollars if some former officials had come out bluntly as Mr. Matson has done. (No reflection on anyone that he argued with.) So where are we going? Eight years ago an ordinary city lot was taxed \$10. How much is it now?

WILLIAM MARKS,  
114 Cossar Ave.

The Editor.

The best bond or liaison between government and the public would be common law councils—at least one in each electoral district. The purpose or object, to influence the MLA's of any party to support the common law, to give a public pledge not to vote for any bill which conflicts with that law, to inform any MLA at any time the views of his electors.

The object of the common law is, to put it broadly, to ensure that the economic and industrial life of the community is so governed so that social institutions shall be subservient to our physical and spiritual needs. That law is based on equality of rights, equality of taxation, equal privileges, equal restrictions and obligations. It forbids against exploitation for private gain. And such common law councils would investigate and debate matters of local interest where there is alleged violation of security of property and of security of natural rights.

The councils would publicize discoveries and new methods, and be a sounding-board for new ideas for the well-being of the state. It would have machinery to handle cases of individual hardship.

Who would serve on these councils? Teachers, doctors, lawyers, clergymen and representatives of other professional ranks, labor men, but not MLAs or political parties. The councils would have a non-political character—that is necessary to keep the legislative bodies distinct from the councils, since the latter is to be a check and a guide on our lawmakers. The MLAs would attend council meetings only as witnesses and, of course be questioned by the members. Why not start such a council in your locality?

I have been concise and terse, purposely, for the sake of space and prefer to use a pen-name because of employment in the civil service.

ALERT.

The Editor,  
Penticton Herald.

CORRECTION

Would you kindly grant me space in your valued newspaper, to correct a statement made recently over the radio?

Last Thursday evening, March 18, I was surprised to hear Bob Morrison, on the Hunt Motors, "Personally Speaking" radio program, report that he had, that day, engaged in a lengthy discussion with me on the evils of tea, coffee and liquor.

I should like to state that at no time have I discussed the above commodities, either lengthily or briefly with Mr. Morrison. Thanking you, Sir, for the courtesy extended.

EMMA V. THOMPSON,  
Naturopathic Physician,  
212 Main Street,  
Penticton, B.C.

## NEWS FROM

## Victoria

By J. K. Nesbitt

VICTORIA — The oppositionists in the Legislature keep looking for a split in Social Credit ranks.

They've quite convinced themselves such a split is coming — that it can't be far off; they certainly hope so.

Every now and then, as legislative debate proceeds, the oppositionists think they see such a split opening up. However, so far, their fond political hopes are soon dashed.

One day S. C. Mr. Matthew of Vancouver Centre got up and he said that his colleague, S. C. Mr. Martin, the Minister of Health and Welfare, who's MLA for Vancouver Burrard, had made a very fine speech and all that — but — but, Mr. Speaker!

Ah, said the oppositionists to themselves — that but — what does it mean? But what? Perhaps, said they to themselves, here's a split between Messrs. Martin and Matthew. Happy day!

However, Mr. Matthew was merely disagreeing with Mr. Martin because Mr. Martin had boastfully said that Vancouver Burrard was the centre of Vancouver. That's not so, Mr. Speaker, said Mr. Matthew, the centre of Vancouver is Vancouver Centre. Where else could the centre of Vancouver be but Vancouver Centre?

There's a lot of talk—and hope—in opposition ranks, too, that Mr. Chant and the Premier are rivals for Social Credit leadership

in B.C. Oppositionists pin their hopes on Mr. Chant to lead a rebellion against Mr. Bennett.

But the day Mr. Chant got up to speak he was loud in his praise of the Bennett budget. A wonderful, realistic budget, said Mr. Chant. The oppositionists had to admit, even to themselves, and among each other, that they could see absolutely no sign of a break between Messrs. Chant and Bennett.

CCF Mr. Howard of Skeena noted one day that S.C. Mr. Tisdale of Saanich had said there's no longer any need for an opposition in the Legislature, now that B.C. has a S.C. government. Maybe Mr. Tisdale thinks that, but Mr. Howard doesn't. Mr. Speaker! If ever the people of B.C. need an alert opposition, that time's now — now that there is a S.C. government. That's Mr. Howard's sentiment!

To Mr. Howard, — so he said — S.C. backbenchers are nothing but a bunch of remote-control robots — and, considering that, a good opposition's more necessary than ever, Mr. Speaker! That's what Mr. Howard said.

S.C.'s Mrs. Lydia Arsons, who runs a restaurant in Victoria, likes to lecture MLAs on the kind of food they should eat to remain healthy. Mrs. Arsons insists that too many people these days are taking foods that she says poison them. "You are what you eat," said Mrs. Arsons, and it seemed she glared at the plump, bald ones.

## Flyers Paced By Parker In Finals

Glen Parker picked up five goals as the Flyers downed the Hiballers 6 to 4 in the first game of the midget hockey finals, Tuesday. The game was one of the best played so far in the midget league with the score tied at two goals each at the end of the first period, 2 to 2 for Flyers end of the second, and a tie at three times to the Hiballers two. Besides Parker's five goal effort, Seely scored one and assisted in two others for the Flyers. Connely, with two, and Moore, with a goal and an assist, were the big guns for the Hiballers. Next game in the best of five series will be played next Monday night at the Memorial Arena.

## Business Girl Plans Worry-Free Future

## \$150 Every Month For Rest of Her Life!

A young Toronto woman has solved the vital problem facing all business and professional women—future security. If she stays single, her future will be protected by a Confederation Life policy which, at age 50, guarantees her \$150 a month for the rest of her life! If she marries, this policy will provide a comfortable "extra-income" for her and her husband.

Her Confederation Life policy is a systematic savings plan for building a secure future—without financial risks or investment worries. If, for example, she is totally disabled for at least six months by sickness or an accident before she is 50, Confederation Life's Disability Benefit will keep up her premiums for her until she is well again.

If you want this same protection for your future, see your friendly Confederation Life Man soon!

## FOR SALE Roadside Stand At Flood, B.C. (Near Hope)

This valuable property is offered for sale and tenders will be received up to Saturday, April 24th, 1954.

The property consists of a modern building, built two years ago, and comprises adequate display stands, a preparation room with facilities for washing, prepackaging and storing, a common storage room, a cold storage room capable of holding about a carload of fruit and vegetables and two modern rest rooms.

It is situated on a lot of ample size with approximately 260 ft. frontage on the main Hope - Vancouver Highway. The building is set back 25 ft. from the main road. The property is cleared of all brush and stumps and has been graded and gravelled where necessary and provides adequate space for car parking well off the Highway. The property is subject to a reservation prohibiting its use for some years as an auto court, motel, hotel or for any other tourist accommodation.

The property, as it stands, cost \$15,400.00 and tenders are invited for its purchase. Tenders may be submitted direct or through a Real Estate Agent when the regular commission will be paid if a sale is made.

Tenders will be reviewed on Monday, April 26th. This offer is made subject to the provision that the highest or any tender is not necessarily accepted.

Application to view the property may be made to Dry-Bell Growers Limited, 1476 Water St., Kelowna, B.C. Dated at Kelowna, B.C., this 19th day of March, 1954.

## Peach Festival

(Continued from Page One)

**Syd Hodge, businessman**—"I believe this idea of a square dance can be developed into a real good thing. It is something different and could become an attraction to equal the regatta feature of Kelowna's big celebration. It would likely be financially successful and that is all for the good. Personally speaking, I would go to see the square dancing but I don't think the rodeo is much of an attraction."

**Mrs. George Broderick**, of the old time dance club—"Square dancing sounds like a wonderful idea. I would suggest that there be a division line in the jamboree between American and Canadian old-time dancing as they are distinctly different. There are about 150 old-time dance club members here and a similar number in Summerland. That would probably be the core of the show and we would have to help shoulder the responsibility of making this a success. As for the \$2,500 Kelowna has not had to back down on their regatta and I don't think we should back down on our show either. Surely we are not so hard up that we can't afford \$2,500 for the Peach Festival from the city."

**W. J. Harris, businessman**—"I like the idea of linking up with these people who put on aquatic events, especially boating. I see no reason why we shouldn't make use of our wonderful facilities and I don't believe it would in any way affect the Kelowna Regatta. The group of people have a circuit and Penticton could well be one of their stopping places. Another feature that could be developed is the talent show. With some coaching it could be developed into quite a thing. These two features could become quite an attraction. At the same time we should retain the Peach Festival idea."

**Mrs. George Kingsley**, travel bureau—"I am very much in favor of this new plan. It is something that has been talked of before and I am happy to see action on it. It is a much better plan than these cut and dried ideas. I won't be unhappy to see the rodeo dropped."

**Ken Beagle**, service station attendant—"I'd rather see just about anything than a rodeo unless it's for the first time because once you've seen one you have seen them all. This jamboree plan sounds like a good one. I've had many people drop in here at the garage and say how much they enjoyed a similar show at Oroville. The spectator interest would be terrific. As for the grant from the city, this is a community effort and its publicity value that \$2,500 would be well spent."

**Mrs. W. J. Lethbridge**, housewife—"Square dancing should have a wide appeal as far as young people are concerned but I don't think it would be too entertaining unless people participated. I think the great majority of people like a midway, the fuzzy candy and apples, the ham, less games where you might win a kewpie doll or some other little prize, and I suggest a bigger midway. I think the \$2,500 grant would be a good idea because we should go as far as we can in publicizing Penticton. I would like to see the city contribute for big displays of peaches, packaged in small baskets, that tourists could buy handily as they toured the festival. Roadside booths do not fill the bill."

**Mrs. J. H. Hooper**, housewife—"As far as the rodeo is concerned it doesn't matter to me, I don't like it. I think the festival is more of a tourist attraction than it is for local people but this plan of a square dance jamboree sounds good to me. Outside of the parade there hasn't been enough activity, in my opinion. So many things at the grounds are hammy. I did like the sulky racing, though."

**F. W. Laird**, orchardist—"Square dancing should be a big improvement to the festival. Because of the continuing widespread popularity of this form of dancing it should prove a definite attraction. I think in view of the fact that of the \$10,000 deficit a considerable amount has been

## Products Show

(Continued from Page One)

6 p.m. with a no host dinner, the display and showing of the industrial film. Adults will be charged 25 cents and children 10 cents with all proceeds going to the Penticton United Welfare Appeal Fund.

The show has a three-fold purpose: display for school students, retail grocery displays and telling the story to the consumer.

**WINDOW DISPLAY**

Interest is centred on window displays of local merchants. In this connection, Marvin Syer, head of the retail merchants committee of the Board of Trade, suggested to merchants, "an appropriate card can turn a display of B.C. products into a dynamic, original window. Let's show that we are in the spirit of this effort by displaying B.C. products in our windows, not only for the day but for the entire week."

Further information and display material may be obtained from Mr. Syer. As an added inducement, prizes of \$15, \$10 and \$5 are offered to merchants.

There are prizes for the public too. A total of \$75 is offered. All those attending will be given a form at the door and invited to test their knowledge of B.C. products. They will be asked to fill in not less than 10 brand names and a draw will be made for the winners.

Just one slogan of B.C. Products Week is "Dollars spent for B.C. products are like homing pigeons, they come back to you." Another is "If we want our children to find employment here, don't send the payroll away."

**WINNING TICKET**

Investment by Mrs. Roy Soloway, 1056 Argyle street, in an Irish Hospital Sweepstakes ticket will pay a dividend of approximately \$275. Her ticket, ZS 34406 has drawn a prize of 100 pounds sterling. Mrs. Soloway received a cable to that effect, yesterday.

Russia, largest country in the world in area, covers about 8,500,000 square miles.

put into improvements of a permanent nature at Queen's Park, serious consideration should be given to the \$2,500 grant."

**June Brett**, teenager—"If the festival committee made more of the parade I think it would have a greater appeal for visitors. When visiting at the coast I have been told by people that their recollections of the festival centred mainly in the parade. I think the festival should have some idea that is entirely original and a square dancing program would at least be something new for here because there has never been anything in the valley like it. I believe high school students would add their support. A program of a more festival nature would promote a better civic spirit and I think people would rather participate than watch while others made the festival for them. In other words, as most teenagers say, it would become hep."

**Fred Jamieson**, auto court owner—"As far as the grant is concerned, I feel the city should be willing to do something for any organization that is bringing visitors to our city. Because it is a disadvantage to all of us here, I never could see this bringing in of high priced talent that failed to pay its way. Square dancing is quite the go these days and I think the festival committee is on sound ground in thinking the way they do."

## Court Decision Rejects Appeal On Assessment

Appeal against assessment on his property, brought by Frank Czezel, has been dismissed by Judge M. M. Colquhoun on grounds that the court had no jurisdiction in respect to improvements.

As to the land assessment, Judge Colquhoun stated that, in his opinion, it was not out of line with similar properties in the area.

The appeal was heard last week and judgement was reserved. The property involved is on Kinney avenue and is a market garden farm.

In handing down his decision, Judge Colquhoun said, "This is an appeal against the assessment and improvements covering lot 102, map 333, city of Penticton. Objection was taken that this court had no jurisdiction to entertain the appeal in respect to improvements."

"As the appeal court of revision was limited to land only, I am satisfied that the objection is well founded and that I have no jurisdiction to hear the appellant regarding his improvements. The matter was not before the court of revision and it follows that there is nothing for this court of review."

"As to the land assessment,

**WHITE SHELLAC PROTECTS WALLPAPER, MAP, POSTER**  
To make wallpaper really washable around light switches, sinks, stoves or in children's rooms, brush or spray the area with this white shellac. Test on a piece of wallpaper first as the shellac may change the wall's reflective properties, though it normally won't alter the colors. Two coats will protect wall decorations such as maps and posters.

a view of the property was taken and my conclusion is that the assessment is not out of line with similar properties in the area.

"Accordingly, the appeal must be dismissed. There will be no costs."

Miss E. A. (Betty) Fentz, R.G. N.S.C.M., of Gamrie, Aberdeen-shire, Scotland, arrived in Penticton on Saturday to take up residence here. While waiting the arrival of her brother-in-law and sister, Mr. and Mrs. Alexander

Park, of Peterhead, Scotland, who are expected to arrive in this city in the early summer to reside. She is a guest at the home of Mr. and Mrs. George (Scotty) Gordon. Mr. Gordon is Mr. Park's half brother.

Miss Doreen Raptis, who attends the Vancouver Normal School, was a weekend visitor in this city with her mother, Mrs. K. J. Raptis.

Jack Harner, supervisor Robinson's Stores, Calgary, is a current business visitor in Penticton assisting Charles Wylie, who is preparing to open a local branch of the business in the building formerly owned by the Simpson Sears Ltd., Main street.

## In And AROUND TOWN

Mr. and Mrs. Warren Christian and children, Bob, Alec and Anne, of Savona, were weekend visitors at the home of Mrs. Christian's parents, Mr. and Mrs. Earl Hughes. Mrs. Hughes motored to Savona last Thursday and remained there with her daughter and family prior to returning to Penticton with them.

Mrs. T. H. Rayner, of Naramata, has arrived home after travelling to Vancouver by plane for a brief visit there.

R. B. Cox, president of the Okanagan Valley Teachers' Association, and Mrs. Cox were in Vernon and Enderby over the weekend where Mr. Cox made official visits to the teachers' groups in those centres.

More than 30 members of Edina Chapter No. 33, Order of the Eastern Star, travelled by bus on Friday to Hedley to attend

the instituting of a new Eastern Star chapter in that centre. Among those from Penticton participating in the formalities of the evening were the grand Es-ther of the Grand Chapter of British Columbia, Mrs. J. L. Hooper, who acted as grand associate matron, and Mrs. H. H. Whitaker, past grand matron, who served as associate conductress. Mrs. Nellie Rae, of Trail, grand marshal, who was an overnight guest with Mrs. Whitaker, accompanied the local members to Hedley.

Mr. and Mrs. Warren Christian and children, Bob, Alec and Anne, of Savona, were recent weekend visitors in Penticton with Mrs. Christian's parents, Mr. and Mrs. Earl Hughes.

The Local Association of Girl Guides and Brownies will meet tomorrow evening in the Red Cross Centre at 8 p.m.

### Spaghetti Dinner On St. Patrick's Day

SUMMERLAND — The annual St. Patrick's Day spaghetti dinner held by the Catholic Women's League had a good attendance last Wednesday evening in the parish hall of the Church of The Holy Child with flowers and shamrocks used to decorate the tables.

Mrs. P. Pelletier, second vice-president, was general convener with the Italian style dinner prepared by Mrs. J. Cristante, Mrs. J. Betuzzi, and Mrs. S. Fabbi. Mrs. Anna Wolfe arranged the salads and Mrs. Frank Jacobs and Mrs. C. P. Pearson were in charge of desserts.

Mrs. G. E. Logie and Mrs. R. Russel laid the tables and serving were Mrs. M. Bonthoux, Mrs. Margaret Wood, Mrs. H. Shannon, Mrs. P. Bonthoux, Mrs. V. Folsello, Miss Darlene Bonthoux and Miss Patsy Menz. Assisting in other ways were Mrs. A. Bonthoux, Mrs. J. Schaefer, and Mrs. Roy Gilbert.

Mrs. J. L. Hooper and Mrs. H. H. Whitaker were in Oliver on Wednesday for the bridge luncheon held there by Southern Gate Chapter, Order of the Eastern Star, to raise funds for the OES cancer dressing stations sponsored throughout this province by the Grand Chapter of British Columbia.

## "Pussy Willow Tea Plans" Finalized, Initiation Held By Job's Daughters Here

The Penticton Bethel, No. 16, International Order of Job's Daughters, at a meeting last Tuesday in the Masonic Hall gave an official welcome to the grand guardian of the grand council, Mrs. Jessie Upton, of Vancouver; exemplified the ritualistic work of the order, initiated a new member and discussed plans for the annual "Pussy Willow Tea" on Saturday afternoon in the Masonic Hall social room.

The tea is one of the major money raising projects of the Bethel and is being convened by Miss Marie McFarlane, honored queen. Assisting her are Miss Shirley Myers as chairman of the tea refreshment committee, and Miss Margurite Cranna, decorations convener. Two members from Edina Chapter, Order of the Eastern Star, will be in charge of a homecooking booth planned for the event.

Eastern Star members have been invited to preside during the tea hours; Mrs. R. B. Cox, who is also council guardian of the local Job's daughters; Mrs. A. D. McCune, president of the Past Matrons' Club; Mrs. James Meldrum, past matron, and Mrs. J. S. Dicken, worthy matron-elect of the Penticton OES. Guests will be received by the honored queen of the Bethel.

Prior to the tea discussions Mrs. Upton, grand guardian, was extended a most pleasing welcome by Miss McFarlane after which the initiation of Miss Mary Jane McAlpine, of Osoyoos, took place.

An invitation was extended by the grand guardian to two local members of the Bethel to participate in the grand council session to be held in Vancouver on April 23 and 24. Miss Muriel Gawne, fifth messenger, was asked to serve in that capacity at the provincial gathering of Job's Daughters, and Miss Lois Campbell, marshal, was invited to take part in the flag ceremonies at the annual session.

Following the adjournment of the very well attended meeting, refreshments were provided and served by the members of the Past Matrons' Club of the OES here. Among the many present for the Job's Daughters' official visit were guests from Osoyoos, Summerland and Naramata.

### UBC Alumni Ass'n Plans For Winnipeg Ballet Visit To Penticton

Dr. and Mrs. Clyde M. McLeod were hosts on Sunday evening to the executive of the UBC Alumni Association. President Peter Vanderhoop, occupied the chair during the business of the meeting which centered around tentative plans for the visit to this city on May 10 by the Winnipeg Ballet.

Following adjournment of the business session, refreshments were served at the conclusion of a very pleasant social hour.

SUMMERLAND — The public clubhouse party sponsored by the Ladies' Auxiliary to the Canadian Legion was well patronized on Wednesday evening with over 40 present.

Mrs. E. J. Melvin and Mrs. H. Baker were winners of high and low prizes for the women and Mr. Delfrich and H. Thornthwaite for the men.

A door prize was won by P. Davis.

## "Screening The Films"

With Barry Freeman

Just a few words this week regarding the shows, as I have something else on my mind that I would like to pass along.

This weekend Bob Hope provides lots of laughs in his new comedy hit "HERE COMES THE GIRLS" and on Monday and Tuesday a frank and unusual drama "THY NEIGHBOR'S WIFE" stars beautiful Cleo Moore, who by the way is the young lady who made the headlines recently for her five minute kiss with a disc-jockey over a national T.V. network. The disc-jockey who was immediately fired, remarked that it was worth it, and after taking a second look at Miss Moore I am inclined to agree with him. On the same program with "Thy Neighbor's Wife" is "THE ROYAL TOUR OF FIJI AND TONGA". Filmed in technicolor it is thirty minutes of really fine entertainment.

On Wednesday night only Richard Widmark is the tough guy in "ROAD HOUSE", with Ida Lupino, Cornel Wilde and Celeste Holme co-starring in a drama filled with action, suspense and a love story with a completely new angle.

As a theatre manager I have absolutely no sympathy for any person who creates a disturbance in a theatre such as talking, moving about noisily, placing feet on another patron's chair, etc. One noisy patron can spoil the show for the entire theatre audience, who have paid good money for their admission and are entitled to an evening of comfortable entertainment. A suggestion for any of you patrons who are ever disturbed in a motion picture theatre is to immediately report it to the manager or any member of the staff. I can guarantee that action will be taken.

Before I go further I would like to go on record as saying that the teen-agers of Penticton are the best behaved of any that I have come in contact with in this province. The greater majority of them are fine young ladies and gentlemen and conduct themselves as such, however, there are a few, that because of their ill-mannered and insolent behaviour cast a black mark against the entire group. If these few young people could only be brought to realize how completely silly and adolescent their actions appears to members of their own age group and to older people I'm sure that they would behave more sensibly.

### Address, Pictures Of British Honduras By Missionary Here

Miss Joyce Blair, a missionary recently returned to Canada from British Honduras, will address a meeting on Monday evening in the Church of the Nazarene, on the corner of Eckhardt avenue and Ellis street. She will tell of her work in the missionary field in the British colony of Central America, and illustrate her address with colored pictures from that centre.

Miss Blair is a native of Red Deer, Alberta, and has spent two terms serving in British Honduras. A welcome will be extended to all interested in attending.

Mrs. J. H. Hooper has returned home after spending some time in Vancouver where she was called by the critical illness and subsequent passing of her sister there.

## First Seasonal Meeting For W A Peach Festival

Bearing testimony to the fact that hockey is currently holding precedence over the majority of other local interests, was the small attendance at the Monday evening meeting of the Peach Festival Association Women's Auxiliary held in the Inco Hotel.

President, Mrs. A. Earl Wells, occupied the chair at the meeting, the first of the 1954 season, which had been arranged to elect a current year's slate of officers and to discuss a number of matters pertinent to the association meeting held last evening.

Major discussions focused on the letter from the association executive in which the auxiliary was requested to accept the full responsibility of selecting ward robes for Queen Val-Vedette VII and her attending princesses. The secretary, Mrs. Juan Puddy, was instructed to inform the association that the auxiliary would be pleased to conform with its request.

Owing to the small number present it was decided to defer the elections until the next meeting of the auxiliary, possibly early in April. The definite date will be arranged at the conclusion of the more immediate hockey playoff games. Nominations for the offices of president, vice-president and secretary were accepted with further nominations to be presented at the forthcoming April meeting.

Reference was made to the annual "Princess Tea" which is held by the members of the auxiliary to honor the festival royal candidates.

This popular social highlight of forthcoming festival activities is held shortly following the selection of the royal candidates. The tea convener and other committees will be chosen at the next meeting of the auxiliary.

### Mountain View Home

#### Ten Was A Success

SUMMERLAND — A tea for those at the Mountain View Home was the St. Patrick's Day plan by the members of Faith Rebekah Lodge, No. 32. It was a great success.

The affair was arranged in the dining room with the tables decorated in St. Patrick's motif.

A happy informal afternoon was enjoyed by those who live at the home and by the lodge members present.

Conveners for the party were Mrs. John Caldwell, Mrs. M. Henker and Mrs. J. H. Dunsdon.

MISS EVELYN CALDWELL.

Vancouver Sun newspaper columnist, "Penny Wise" who will be commentator at the Junior Hospital Auxiliary sponsored style show "Prelude To Spring" being held here next Wednesday evening in the high school auditorium.

### Church Women Hold Prayer Service Here

Women representing the several churches in Penticton gathered recently in St. Andrew's Presbyterian Church to participate in the "World Day of Prayer" service.

Mrs. J. L. Palethorpe, local organizer and leader in the worship service, greeted these present after which a silent tribute was paid to the late Dr. Sarah Chakko, of India, a great world Christian, who had died very recently. The late church woman had prepared the program for the current year's World Day of Prayer and it was shortly before its observance that she died.

Among those from Penticton churches participating in the program with its theme, "That They May Have Life" were Mrs. Chris Brown, St. Saviour's Anglican Church; Mrs. H. G. Hux, Four Square Gospel; Lieut. D. Hill, Salvation Army; Mrs. James Meldrum, Penticton United Church; Mrs. E. W. A. Cooper, First Baptist Church, and Mrs. John Peel, of the Bethel Tabernacle.

Rev. Samuel McGladdery, B.A., B.D., pastor of St. Andrew's, gave the main address of the worship period. Soloist, Mrs. June English, singing, "Blessed Hour of Prayer" was accompanied by Mrs. W. A. Swift at the organ.

The collection was sent to the Vellere Christian Medical College, India, for the purchase of Christian literature.

### Rummage Sale Planned By B.P. Women's Club

The Penticton Business and Professional Women's Club is sponsoring a rummage sale on Saturday afternoon in the Knights of Pythias Hall on Main street.

Mrs. Joyce Brown, international relations committee convener, is chairman of the sale which will commence at 1 p.m. Proceeds are designated for the fund to send a student to the United Nations summer school at the University of British Columbia.

## Sun Newspaper Columnist, Penny Wise, Commentator For "Prelude To Spring"

The ingenuity and untiring efforts always employed in an endeavor to create an outstanding success of any Junior Hospital Auxiliary sponsored project will again be emphasized in "Prelude To Spring", the annual fashion parade to be presented next Wednesday evening in the Penticton High School Auditorium. Attracting particular attention in plans for the spring show is the announcement that Miss Evelyn Caldwell, better known as Penny Wise, the "globe trotting" Vancouver Sun newspaper columnist, will be commentator for the display which will feature fashions from the Hudson's Bay Company.

Penny Wise, who is coming to Penticton especially to interpret the spring fashion trend at the show, devotes her world wide travelling experiences to preparing unique and interesting material for her column which offers shopping tips to the housewife. She has just recently returned from a trip to South America.

"Prelude To Spring", featuring styles for women of all ages, will have femininity as its keynote. The 1954 collection will display shorter skirts, crisp lingerie touches, voluminous skirts over crinolines giving emphasis to the tiny waist line and snug fitting bodices and in contrast will be molded creations showing the Paris inspired princess silhouette.

Coats and suits with fine tailoring, softly draped dressmaker suits, and the indispensable costumes for active and spectator sports will be among the many pleasing presentations to be shown by a bevy of attractive models. The Hudson's Bay Company is arranging for a special feature in which original imports from New York and Paris are being sent in from the Bay's "Mirror Room" of Vancouver.

There will be a fur section in the parade, an all-white bridal ensemble and the very popular "sew and save" section featuring garments made from materials purchased at the Bay and modeled by the children whose mothers have made the costumes.

An excellent program has been arranged for the evening's presentation. Musical in theme, the entertainment will feature the individual performer, not the group presentation as in former years. Details of the program are as in the past a closely guarded secret but the committee convener promises that it will equal all former pleasing and scintillating entertainments presented by the auxiliary. Bags of homemade candy will be sold prior to the fashion parade and during the program intermission.

Among the many Junior Hospital Auxiliary members assisting general convener of the "Prelude To Spring", Mrs. J. W. Watson, are Mrs. Davis L. Frost and Mrs. Neil R. McElroy, fashions; Mrs. L. T. Roth and Mrs. R. V. White, training of models; Mrs. Louis Hohenadel, entertainment; Mrs. N. M. Armstrong, show tickets, available from all auxiliary members or the city's drug stores; Mrs. A. Earl Wells, decorations depicting a patio setting with floral arrangements; Mrs. George Minns, advertising; and Mrs. W. F. Gartrell, posters. Mrs. W. C. Gibb is in charge of the ramp and lighting. Mrs. Thomas Walker is the ushering. Mrs. M. D. MacNair and Mrs. Jack Morris will be in charge of the dressing rooms. The popular "sew and save" feature is being supervised by Mrs. H. B. McGregor. Mrs. Mort McNally will be pianist for the forthcoming presentation. Mrs. A. H. Frazier is president of the Junior Hospital Auxiliary. Mrs. James Fleming is raffle.

### Explorers Group Of United Church Elects Officers For Year

The Explorers group of the Penticton United Church elected Lynn Cumberland, president; Denise Murley, keeper of the log, and Frances Asman, keeper of the treasure, at the regular weekly meeting last Tuesday in the Sunday School building.

Reports submitted showed that since January the girls have been studying the early writings of the Bible under the guidance of Mrs. Arthur M. Warren and Mrs. Thomas Turner; they have also made scrolls to illustrate these teachings.

Mrs. Fred J. Pryce has arranged the singing and the members have learned several new hymns.

Under the leadership of Mrs. Harry Smith, the girls have just started on their mission study project, "Stories and Games from Many Lands", with the new quiz "Missiongrams" as a part of the project, are much enjoyed by the group.

Three new girls were welcomed to the meeting last week and others in age from 9 to 11 desiring to attend would be extended a very hearty welcome by the Explorers. The weekly meetings are held in the Sunday School building each Tuesday afternoon.

The Hudson's Bay Company has donated a pair of blankets for the first prize, Pye and Hillyard, an overnight bag; Don Lange Jewellers, a 20 piece china set, Bryant and Hill, a "Hat Trick", and Rexall Drug Store has donated a beauty kit as door prize.

### Eugene Conley

(Continued from Page 1)

to sing the high sustained notes which nevertheless did not sound at all pinched and strained. Perhaps these are just nervous mannerisms on the part of the artist although it looked very much as if he were not using his breathing mechanism correctly. But, Handel is certainly not the place for mannerisms of this nature and if his arias are to be performed at all they should be executed with complete ease and apparent spontaneity.

Mendelssohn and Richard Strauss were composers in the second group of songs. The first "On Wings of Song" was sung in a beautiful lyric tone, as were all the concert songs, but many of the words were lost, owing to Mr. Conley's almost exclusive use of Italian vowel sounds and somewhat exaggerated articulation although perhaps it is better to have the consonants over stressed than to have them inaudible. "Spring Song" also by Mendelssohn was quite a contrast to the preceding song and was sung and played with great verve and vitality by both artists, but here again Mr. Conley's diction was not at all clear. The two Strauss lieder which followed were quite beautiful songs. The first, "Nights" was really quite charming and the singer succeeded in making the harsh guttural sound quite pleasing although many of the words were not very clear. The second song, "Hellicke Auforderung" (Lovers' Pledge), was sung in a lovely warm tone and a variety of shades of tone color employed. Mr. Conley seemed certainly to be improving as the program continued and gave as an encore Franz Schubert's "Nacht und Traume" (Night and Dreams) sung throughout in a most restrained piano tone and showing great artistry in use of the falsetto voice.

The Mozart aria "Il mio tesoro" from Don Giovanni was sung next and it was felt that Mr. Conley was in his rightful element and his lovely voice was being put to use in a song much more suited to it. The difficult passages were sung clearly and effortlessly and the intrusive "h's" were not really as obvious as in the Handel arias. After this demanding aria the artist was generous enough to give an encore — the Duke of Mantua's aria in the first act of Rigoletto, "Quella a Questa" sung with great enjoyment and vigor.

After the intermission Mr. Frank, who is a competent solo pianist as well as a splendid accompanist, gave an extra group of piano solos in which he displayed his fine technique and range of tone to great advantage. His first selection Debussy's "Nocturne No. 3" was beautifully played with a delicacy of touch that was in great contrast to the last part of the next piece, the well known "Bolero" by Ravel. The third selection was the fiery "Spanish Rhapsody" by De Falla.

In the following two arias by Puccini Mr. Conley was at his finest "Recondita Armonia" (Strange Harmony) from "Tosca" and the famous "Che Gelida Manina" from La Boheme. At first the accompanist seemed strangely lacking with no cellos to play along with the melody line in the typical Puccini style, but after a few bars of song sung so well, the lack of the orchestra did not matter at all. The high notes just before the final phrase of this aria were sung in a beautiful warm head tone which is certainly quite an achievement as the majority of tenors always seem to have to employ a hard strained and pinched tone for this particular phrase so much so that it was a pleasant shock to hear Mr. Conley's lovely ringing tones for this phrase. At the beginning of the concert it seemed to be quite amazing that Mr. Conley had ever sung at the Metropolitan Opera House, but having heard this and the preceding three arias it was apparent why he was chosen for the new '53 production of La Boheme. As an encore to this group Mr. Conley sang the aria from "Martha" with great charm. Although the next song "Floods of Spring" was sung better than several of the other concert songs it was nevertheless something of an anti-climax after the operatic group, as several of the words were not at all clear and an irritating coarseness in some of the middle notes of Mr. Conley's voice was heard. The contrasting "To the Children" also by Rachmaninoff was sung throughout in a pianissimo tone and this time the words came through very much better. After the lovely song "The Praties" seemed to be going in alien ground even although it was two days after St. Patrick's Day and although for the most part the audience enjoyed this song tremendously especially when the accompanist helped to dig in the "garden" where the praties grow" by thumping in the bass notes of the piano. Mr. Conley would have displayed a little better taste perhaps had he chosen a song less hackneyed and worthier of his beautiful voice.

"Beloved" an adaptation by the singer and his accompanist of Rubenstein's "Romanze" was very disappointing in content and in execution. The words were quite trivial and in places the singer seemed to be almost unconscious of his notes where the vocal line departed from the melody, resulting in a certain flatness of tone and the "crackle" in Mr. Conley's throat became more marked and the accompanist seemed to be far too loud for the singer towards the finish of the song. However, an encore was given — another Irish ballad "The Rose of Tralee".

In the final group Mr. Conley happily returned to his operatic repertoire and sang two arias from Verdi's Rigoletto, "Pazmi vider le lagrime" (Each tear that falls) and "La Donna e Mobile". Although Mr. Conley had been singing for almost two hours and had a certain irritation in his throat, he sang both these arias beautifully and the hackneyed "Woman Is Fickle" had quite a refreshing lilt to it as sung by Mr. Conley. Although it is usual to give encores at these concerts, in this case it would probably have been better to have sent the audience home with the lilt of "La Donna e Mobile" in their ears, but Mr. Conley chose to give two more Irish songs "The Ballynne Ballad" and of course, "Danny Boy". Incidentally Mr. Conley sang all the Irish songs without an Italian accent but with the usual "stage" Irish brogue. Why is it that tenors always deem it necessary to sing Irish songs of the most sentimental kind? Mr. Conley's final song was "Cossack Love Song" with a pseudo Russian flavor by an "all American composer"; this was sung with surprising vigor after such a full program and played equally vigorously by the accompanist, but louder.

"This present series of concerts has certainly been a success and the people of Penticton and district are most fortunate in having a suitable auditorium complete with a splendid grand piano to do these concerts justice. Everyone is looking forward to the '54-'55 season." —E.M.M.

## Cut In Budget Objected To By Parks Board

### TWO YEAR TERM METED OUT FOR LOADED RIFLE

A Grand Forks resident, Ronald John McKinnon, was sentenced last week to two years in penitentiary when he appeared before Judge M. M. Colquhoun on a charge of having in his custody or possession an offensive weapon, dangerous to the public peace. The trial took place at Grand Forks.

Judge Colquhoun said he would recommend psychiatric examination for the man.

The weapon involved was a loaded .22 calibre rifle and evidence disclosed that McKinnon had threatened his wife on four occasions during the past six weeks.

The latest incident occurred when McKinnon phoned his wife and went to the back door of the butcher store where she is employed. He had in his possession a gun. She opened the door and McKinnon asked, "Well, how do you want to die?"

Mrs. McKinnon screamed and two clerks rushed out and subdued the threatening husband.

According to evidence there were other threats. On one occasion McKinnon was alleged to have fired a shotgun blast through the dining room wall of their home.

Court was told that McKinnon came home another night to find his wife in bed. He asked her to move over and from behind the mattress produced a loaded gun. She had been resting on it.

**R. L. Cawston Is Laid To Rest**

At funeral services held in the Cawston Community Hall on Monday afternoon, friends and relatives from all parts of the Similkameen and Okanagan valleys paid their last respects to Richard Lowe "Dick" Cawston.

The late Mr. Cawston, whose father was the first settler in the area that bears the family name, passed away in the Penticton hospital on March 18.

Aged 66 at the time of his death, he had made his home here with his wife since 1945. Born at the "red ranch-house", he had spent all his life in B.C., with the exception of his school years at Stratford, Ontario, and he was favorably known from the coast to the interior.

He was the second son of the pioneer couple, "L.L." and Mary Ann Cawston, and following Monday's funeral service, which was conducted by the Rev. L. Scheutze and the Rev. Dr. John Goodfellow, of Princeton, he was laid to rest in the family plot in Cawston cemetery.

Indicative of the widespread character of his friendships was the list of honorary and active pallbearers drawn from all parts of the two valleys.

Honorary pallbearers were Sam McCurdy, A. Bloomfield, E. Bromley, Val Haynes, Bill Haynes, Bert Thomas, L. Newton, Babe Kruger, A.S. Hatfield, Reg Atkinson, Graham Knight, Dr. W. H. White, Ed Richter, Joe Richter, A. F. Cumming, and Warwick Arnott. The active bearers were Tom Daly, Wally Match, Frank Bowsfield, Hans Richter, Jack Milne, and Sam Manery.

The deceased is survived by his wife, Vera; one son, Richard, of Hope; one daughter, Marjorie May, in Australia; and by his brother, Alfred Hamilton Cawston, of Cawston.

**Mill Rate**

Items, "This will be done with a view to reduction to the point where we shall have a fully balanced budget," said Ald. F. C. Christian, chairman of the finance committee.

**BUDGET FIGURES**  
Listed by departments, the number one priorities show the following figures:  
General ..... \$ 733,335  
Electrical Department \$ 323,316  
Public Works .....  
Administration ..... 59,135  
Domestic Water .....  
Dept. .... 107,750  
Irrigation Dept. .... 34,680  
Garbage and Sewer .....  
Disposal ..... 52,350  
Board of Works ..... 291,851  
Fire Dept. .... 51,211  
Justice (including .....  
police) ..... 31,420  
Health and Welfare ..... 75,732  
Total ..... \$ 1,700,780

Penticton Parks Board has replied to city council, strongly opposing the latter's action in lopping off the board's budget from \$83,767 to \$52,500 and has asked the council to "meet them half way".

Council, in turn, discussing the matter at Monday's meeting, has reiterated its detailed estimates based on the figure established by the council.

The Board's letter to council reads, in part:  
"When the Parks Commission conferred with Mayor Matson and Councilors to discuss our budget, no inclination was given at that time that such a drastic cut would be requested."

"Your Parks Commission has given willingly of a great deal of time to this work.  
"One might suspect that the Council has been unduly influenced by an entirely misleading editorial in the Penticton Herald of February 24, under the heading of (First Things First), which might create a wrong impression of parks in the public mind, but is excusable on the grounds of reporting 'by guess and by gosh' as no reporters attend Parks Board meetings."

"I sincerely trust it did not suggest to any members of council that the Parks Board be made the 'whipping boy' and held responsible for the sad state of our sidewalks and also any lack of water services. Such is not the case."

"We consider that we should be met at least half way and would suggest another meeting with council, as we consider the suggested amount inadequate both as to maintenance and development of parks, considering the various types of parks which include the cemetery, arena and keeping of two beaches in ship-shape condition."

"That we have got by to date is no excuse for not selling Penticton to our British Empire Games and other visitors this summer."

"This letter has been seen by every member of the Parks Board, who fully subscribe to it."

Signed — A. W. McNicholl, Chairman.

Alderman F. C. Christian, denying the implication that the editorial quoted had "influenced" council, remarked, "I do not see how we can depart from our view on this matter."

Added Acting Mayor E. A. Titchmarsh, "We spend as much as we can afford on parks, and probably more per capita than is general throughout B.C. I feel that parks can be maintained within the suggested budget."

"If our mill rate was lower, and the tax burden easier there might then be some leeway provided, but in view of our economic condition I cannot see how we can at this time."

The Parks Board letter was ordered tabled.

City Treasurer H. W. Cooper reminded council that it would be necessary for the Parks Board to table its detailed estimates so that this can be grouped with other city financing in an overall budget if this is to be completed and the mill rate set immediately after the end of the month.

Council agreed that it will request the estimates from the parks authority.

**Conventions**  
(Continued from Page One)  
ing Penticton's famous blow-hole time.

"We are moving into direct competition with other centres for a large share of the convention business," declared Mr. Allison. "There is ample indication, he continued, that other B.C. cities, realizing that conventions can and do provide a very vital between-season volume of business, are organizing their tourist programs with the aim of attracting more business of this kind."

"It is imperative that the current fund raising campaign be successful if we are to maintain the present standing as a resort centre," he said. "But in addition, we must be prepared to keep pace with energetic programs being organized by other tourist associations throughout the province."

**Appeal Is Launched Against Sentence**

An appeal has been launched by the Crown against suspension of sentence granted C. W. Sutherland, of Penticton.

Mr. Sutherland pleaded guilty to a charge of unlawful sale of liquor and was given suspended sentence by Magistrate G. A. McLellan. He was ordered to post a bond.

The appeal is slated for April 6 before Judge M. M. Colquhoun.

## Notice Of Hospital Board Wrong "Four Times In A Row"

Alderman H. G. Garrioch has reported to council that he has so far been unable, through misdirection of notices, to officially represent the council at hospital board meetings.

In a report to council on Monday night, he said that he could understand failing to be properly notified on one occasion, but could not see why it "should occur four times in a row." The written report related the various contretemps he had encountered.

"This surprises and perturbs me," remarked Alderman Wilson Hunt, who was making his first appearance at council table following a sojourn in hospital. "This is," he added, "a very unsatisfactory state of affairs, and quite serious matter."

City Clerk H. G. Andrew said that he had notified the Hospital Board of the change in representation immediately after the appointments were announced. "I hope there is a reasonable explanation for this extraordinary way of carrying on," remarked Acting Mayor Titchmarsh.

It was moved that a letter be sent to the hospital board asking that in future council representative be properly notified of all meetings.

The word livery, meaning a servant's uniform, originally meant an allowance of food or clothing granted to certain persons.

**PRIZES GALORE** in the Penticton Herald's Scrambled Names Contest! The prizes are shown above, on display in the window of Bryant and Hill Men's Wear. Fact that everybody loves a contest is proven by the response during the first week. Immediately after series 1 of the six-weeks' contest appeared in the Herald, the office was deluged with hundreds of envelopes crammed with sales slips and entry blanks and, of course, varied solutions to the first list of scrambled names. Contestants have until Saturday to bring in answers to series 1. Entries for series 2, appearing in this issue, will be accepted up to and including April 3. Winners of the Ladies' Green watch, electric washer and sandwich toaster, prizes for the first week's contest, will be announced next week. Prizes for series 2 are a lovely twin set of luggage for milady, smart mantle radio and a General Electric steam iron.

## Horticultural Society Had Successful Season In Summerland District

SUMMERLAND — A flower and garden loving community, Summerland Horticultural Society had 84 members in 1953, it was announced at the meeting held on Friday evening in the parish hall.

The president, A. W. Watt, E. H. Bennett, R. M. White and Nat May were appointed to attend the meeting of the Okanagan Horticultural Society to be held at Kelowna on March 29.

### Mayor Matson Will Decide

Mayor Oscar Matson, who is also general chairman of the BPO Elks Canada-wide grand lodge convention was left responsible for the matter of advertising in the grand lodge program, council deciding this in his absence at Monday night's meeting.

Appeal for an advertisement was received from the committee in charge, and at first council was inclined to decline the appeal. Then E. Aldredge, member of the local business community, pointed out that there would be many hundreds of delegates, doubtless a considerable portion of them prominent business heads, attending, and that the city would have few better chances for "putting across a message" in its search for new industries than this booklet and which would be carried home by delegates.

"This prompted the decision to 'leave it up to the mayor,'" said the speaker.

The bluebottle fly completes its life cycle in little more than one week.

A number of towns are applicants for membership in the valley society and there was discussion as to feasibility of holding a valley show as far away as Kamloops. Mentioned as already members or interested were Oliver, Penticton, Summerland, Peachland, Westbank, Kelowna, Enderby, Vernon, Salmon Arm, and Kamloops.

A letter of good wishes was received from Mrs. Henry Fisher, the honorary president, and it is planned to try to get a garden columnist from the coast to speak throughout the Okanagan. In his "Timely Topics," Nat May said it was the season for cutting off dead branches of 'mums and other perennials, and that roses should be pruned next week. In the latter process he advised heavy cutting for best results with the stronger shoots down to three buds, and with the buds pointing out. "Don't be afraid to cut," he reiterated.

Mr. May recommended a four-inch sawdust mulch around rose bushes and other flowers. At the experimental station last year, the roses were better than ever and bloomed over a longer period the speaker said, due, he believed, to this mulching. He cautioned that nitrogen or sulphate of ammonia should always be used with sawdust or with peat moss, though in lesser quantity with the latter.

He named suitable annuals, telling of a new calceola, Pacific Beauty, and a new red morning glory called Darling. His experience with the cosmos, Fiesta, was not good, but he understood that it grew well on heavy soil. M. Trumppour, district horticulturist, Penticton was guest speaker, talking "Soils," as his subject. He likened soils to a busy factory with rock fragments and organic matter as raw products which through the workers, soil bacteria, moulds, fungi, yeasts, etc., were changed into the finished products of major and minor elements and trace elements, necessary for good growth.

In the matter of fertilizers, Mr. Trumppour said nothing was better than burned manure but organic and inorganic chemical fertilizers are useful, organic being safer for the animal, but a little slower in action.

E. H. Bennett introduced the speaker, and Rev. C. O. Richmond thanked him for his instructive talk. Mr. Watt showed a splendid film on bulb growing at the coast and refreshments were served under the convenship of Miss Doreen Tait.

Old Egyptian tablets depicted rows of fig trees and date palms under cultivation.

## Fuel Stations Are Considered

Penticton will eventually have to make provision for re-fuelling of diesel-powered trucks adjacent to its highways, in the opinion of Alderman Wilson Hunt.

He made this statement when the application of Birmingham and Swetlikoff for erection of a combined gasoline station and diesel fuel station, at the corner of Main street and Carmi avenue was being reviewed.

Council, which finally approved the gas station portion of the application, pointed out that this station is not too far from a school, and that extra care in placement and handling of crosswalks would be needed for this reason.

The diesel portion of the application was left with the traffic committee with power to act, to give them time to study the question of interference with traffic by the larger trailer units.

Alderman Hunt pointed out to council that any diesel station would mean that units would have to cross the main traffic lane at certain times, this being unavoidable.

### Joint Club-Lodge Sign Will Be Re-Erected On Westminster Ave.

Shortly, the joint club-lodge sign that was formerly situated on Lakeshore Drive will be re-erected on the new Westminster Avenue highway approach. It was agreed at Monday night's council meeting.

Permission to erect the sign was sought by the Penticton Lodge No. 51, BPO Elks, and statement made that the sign had been removed from Lakeshore when the old bridge was removed and the old river channel filled in.

## Executive For UCT Named Here Saturday

Dave Gillespie was named senior counsellor of Okanagan Council 738, of the Order of United Commercial Travelers of America, at the annual meeting held last Saturday on "SS Sicamous". Mr. Gillespie succeeds Norman Giddy who will continue to serve as past senior counsellor.

The newly elected senior counselor will also be official representative in Bellingham next May 28. Elected to serve with Mr. Gillespie were Sam Orr, junior counselor; Peter Suter, conductor; Ralph Hollett, page; George Axworthy, sentinel; John Jerome, chaplain and Arnold Westaway, secretary-treasurer.

Mr. Westaway will also be attending the Bellingham meeting as a member of the Pacific Northwest executive committee. Executive committee for the new term will be A. H. Frazer, Frank Speers, Harold Gladish and Len Roth.

Election of officers was conducted by Bruce Munro who is a past counselor of the council. Installation of the new members will take place at the next meeting to be held in April.

Acceptance of new members has increased local membership to 125 salesmen, business and professional men.

Membership in the Supreme Domain is now over two hundred thousand with councils in some five hundred Canadian and American cities. The local unit was organized in March, 1948, and is active in service work in the city, having furnished and maintained uniforms for the local school traffic patrol, raised funds for cancer work and furnished auxiliary is also active in outings for the hospital. The similar projects in the Penticton area.

A cabaret for members and followed the meeting. A cast of guests with entertainment under the direction of Gordon Gauley made up of members of the council and auxiliary presented musical numbers accompanied by Saxie's orchestra.

## Report On Health Favors Chlorination

Alderman H. G. Garrioch, in a health report to council, suggested that steps be taken as soon as possible to chlorinate the water supply in the "high line" domestic water service, supplying the bench.

At the same time it was suggested that more stringent measures be undertaken to ensure the non-contamination of the irrigation water, used by some ranchers for their domestic supply.

In the discussion, it was disclosed that there were fears that spray machines were affecting the water on occasions, and in other instances that transient workers were not sufficiently careful. Also that children of some of these fruit workers had, on occasion, used the ditch as "a private paddling pool."

The first free hydrogen balloon ascension is credited to Marquis d'Arlandes and P. de Rozier in France in 1783.

**CANADIANS WILL DRINK** more than 10 billion cups of tea in 1954, authorities claim. More than 45,000,000 pounds of tea will be required to meet this demand. No tea, however, will enter Canada without the official blessing of one — Cecil Browne, Canada's official tea taster. Shown in his Ottawa Laboratory tasting a sample of tea from a shipment being held in port pending his approval, Mr. Browne, an expert in tea from long experience and training, is a strict watchman over all the tea imported to Canada which must pass his rigid inspection.

**Kelowna Jaycees Voice Criticism Of Methods Used In Liquor Poll**

**KELOWNA** — Strong criticism of methods used by some canvassers here to obtain signatures authorizing a local liquor plebiscite has been made by the executive of the Kelowna Junior Chamber of Commerce.

In a statement prepared following a meeting of the executive, Jaycee president Ed Dickens noted that "some canvassers are being poorly briefed by their organizers."

The statement from the executive follows:

"Canvassers are now calling upon voters of Kelowna and asking for signatures to a petition in order that a liquor plebiscite may be authorized.

Such canvassing is the authorized and legitimate means of bringing the issue before the public and giving them the chance to demand a further vote.

"However, certain incidents connected with the canvass have come to light which would indicate, at the very least, that the canvassers are being poorly briefed by their organizers, and might even suggest that some canvassers are not too fussy concerning the propriety of their efforts to inflate the number of signatures.

**METHODS SCORED**

"In each of these incidents (reported at first hand) the canvasser either deliberately or through ignorance chose to conceal the nature of the document on which the signature was required.

"Once it was said that the signature was for a 'good cause', and nothing more.

"Once the paper was folded so as to hide the title.

"In another case, the matter was treated as a joke and the voter was told he could see what he had signed after he had signed it.

"Yet another approach is to interrupt a busy housewife during the day with the promise that of course the canvasser does not want to interrupt the housework and if Mrs. X will just sign here she can go back to her work.

"It is clear that these people mistake their function.

"They must realize that they have voluntarily taken upon themselves the work of trying to convince a certain proportion of voters that a certain public issue is sufficiently important to merit certain further action.

**NOT PARTISANS**

"They have assumed a role of government and must carry out that role as if they were independent, disinterested civil servants.

"And they should also realize that they are not partisans trying to wrest victory from the enemy. They must not be tricky or unscrupulous in their methods; they may not even be right."

**Keremeos Tables Bridge Resolution**

At the regular general meeting of the Keremeos Board of Trade, last Thursday, the proposed bridge across Okanagan Lake at Kelowna and the resolution received from the Okanagan Lake Bridge Committee was discussed and tabled. It was the consensus of those present that a decision could not be made at this time and to wait until further information on the matter was made available.

On the other hand, the proposal of the member of Similkameen riding, Frank Richter, made in the house at Victoria recently regarding the completion of the north-south road from the border through the Similkameen Valley via Princeton, Merritt, Cache Creek, was discussed. It was thought the Boards of Trade in the Similkameen Valley and on the route of the road should get together and press for this road.

The matter of getting express service into Keremeos was brought up for discussion and it was learned there is a possibility the Canadian Pacific Express Company may be interested in establishing an agency here. The secretary was instructed to write the superintendent at Vancouver regarding the matter.

**Funeral Services Held This Afternoon**

Funeral services were held this afternoon for George Stevenson Andrews, who passed away Sunday, at the age of 74 years.

He is survived by his loving wife, Sarah.

Rev. A. R. Eagles conducted services from St. Saviour's Anglican Church with committal at the Field of Honor Plot, Lakeview Cemetery.

Penticton Funeral Chapel in charge of arrangements.

Among the New Zealand Maori a village maiden performs the task of seeing that no human shadow defiles the food of the tohunga priest or doctor, by passing over it.

Each of these reported incidents is both an abuse of the democratic process which ought to be followed and a ground upon which the whole petition might be set aside when it is finally presented to the city council.

"For this reason, if for no other, we urge that the organizers impose stricter discipline on their canvassers. And we would ask the voters themselves to be sure of what they are signing."

## Will Study Figures On Pumping Supplies

Quotations for supplying the city with new pumping equipment at Lakeshore were received on Monday night by council from seven firms. The prices ranged from a nudge above the \$5,000 mark, to almost twice that sum, with quotations covering everything from the bare cost of the pump, f.o.b. the pump house, to inclusion of both the federal and S.S. and M.A. Tax, and the cost of installation.

Some firms quoted several figures to cover both various equipment and various forms of supplying it. All bids were turned over to the council domestic water committee for study and recommendation to council before being further considered.

# Report From Summerland Farm For January And February

Following is the bi-monthly report of Summerland Experimental Station, covering the months of January and February. The first report, a general one, is by superintendent of the station, Dr. T. H. Anstey.

The weather has been about normal with two weeks in January of temperatures at or lower than zero. The minimum temperature recorded was 4 degrees F. Some bud damage has occurred on peach and apricot but this is not so severe at the station as it may be in other parts of the Okanagan. A complete survey of the fruit growing districts will be made at blossom time to determine the relative hardness of the fruit buds of different varieties.

### YOUNG VAN CHERRY TREES

Ever since the Van cherry was introduced in 1944, growers have noticed that young trees of this variety grew more rapidly during their first years in the orchard than those of other varieties, including Bing and Lambert. Last year it was possible to confirm these observations by actual measurement of a group of trees at the Summerland Station. In April, 1953, 48 trees each of Lambert, Bing, Star and Van were planted on a uniform piece of land. At the time of planting, the trees were fairly uniform in size, although even in the nursery Van had outgrown somewhat more vigorously. In December the height of the trees was individually measured and the trunk circumference one foot above the ground was recorded. An average of these figures for each variety gave the following data:

Height in feet: Lambert 5.1, Bing 5.4, Star 5.7, Van 6.8.  
Circumference in inches: Lambert 2.2, Bing 2.3, Star 2.5, Van 3.1.

### TESTING CHERRY VARIETIES FOR RESISTANCE TO CRACKING

Rain during the season, when sweet cherries are maturing is one of the greatest hazards which the grower has to face. Losses as high as 70 percent of the crop have been known to occur and in almost every year growers in some districts lose 10 percent to 20 percent of their Bing and Lamberts.

The older commercial varieties are all quite susceptible to cracking and various attempts to reduce the loss by sprays and cultural treatments have not been very successful. Consequently resistance to cracking is one of the more important characteristics to be sought in a new cherry variety, and this station includes tests for cracking in its cherry evaluation experiments. Whenever heavy rains occur during the cherry season, counts are made of the extent of cracking in all varieties under test. In addition, controlled experiments have been carried out for several years, in which samples of mature fruit from different varieties are immersed in water and allowed to remain for a definite period. At the end of this period the fruit is examined and the cracking is classified according to number of fruits affected and severity of damage to each fruit.

In 1953 these tests showed the most resistant variety to be the station's new introduction Sam, even than the Van. Next in order came Deacon and Star, while Bing and Lambert were the most susceptible varieties. These results were quite comparable to those obtained in earlier years, except that Star has shown considerable variability in extent of cracking from year to year.

Although Sam has shown resistance to cracking, not only in 1953 but in previous years, further trials are necessary before a new variety can be recommended as susceptible to cracking can be made between this new variety and Van.

### THINNING ITALIAN PRUNES

D. V. Fisher  
The standard Italian prune is grown successfully in western fruit growing areas from California up to its northern limit in British Columbia. This area being the northern limit for prunes, means that under the weather conditions of certain cool seasons, or where cultural care is not of the best, many poor quality, low quality undervalued prunes are harvested. In some years gone by prunes were pruned, however, this has changed, since consumers are more discriminating and have more money in their pockets to pick and choose the type of fruit they prefer.

The new early strains of Italian prunes are slowly replacing the standard strain, but "earlies" still constitute a small proportion of total production. Much can be done, however, to improve quality of standard prunes by proper fertilizer, pruning and insect control programs. Nevertheless, many orchards tend to bear more fruit than the trees can bring to prime maturity. As a solution to the problem of reducing number of fruits per tree, increasing size, and speeding maturity, chemical and hand thinning trials have been conducted.

Chemical thinning trials over the past four seasons have indicated that sodium dinitro-ortho-cresolate (Krenite 20 or Elgetol 20) applied at full bloom thinning trials and without leaf damage. The

od of preparing the pies was the same as would be used in the home.

Apricot, peach, prune and apple pie fillings were tested and made into standard two-crust 8 inch pies. A twenty-ounce can of filler was used for each pie. The filler was placed in pastry-lined pie tins. Spices or flavoring were not added as these may interfere with the natural flavor. If desired, these may be added by the homemaker to taste. The purpose of the test was to judge the true fruit flavor and texture of the finished product.

All products were scored by a test panel. Factors considered were amount of free liquid, color, flavor and texture. Very acceptable pie fillings were developed from the various fruits under test.

### TEA Dainties and Desserts

— Dorothy Britton

Although pie fillings were made especially for pie manufacture it was suggested that they may be suitable for other baked products. Some that have been tested include dairy tarts, jelly roll, fruit cobbler and bar-type cookies. All proved easy and convenient to make and met with test approval. It would appear that there are a great many uses for the fruit pie fillings that are under study.

### DEMONSTRATIONS BRING RESULTS OF RESEARCH TO TOMATO GROWERS

— L. G. Denby

The publicity and extension sub-committee of the tomato investigations committee, Okanagan Agricultural Club, has instigated an extension program designed to bring the findings of the investigations committee, to the attention of the growers by means of actual demonstrations in each tomato-growing district throughout the region. The staff of the Summerland station are co-operating closely with the district horticulturists of the B.C. Department of Agriculture in outlining the scope of the work, and setting up the pattern demonstrations. The first pattern demonstration was held at Summerland on January 14, at which time district growers were organized to unite the provincial men and canners and packhouse fieldmen in each district into compact bodies capable of conducting similar demonstration work in the field. Demonstrations pertaining to greenhouse cleanliness and soil and seed sterilization have begun.

### 22 PERCENT INBRED JERSEY CANADIAN CLASS LEADER

— J. E. Millette

Summerland Blend's Daphne—212465—has been awarded an honor roll for making the highest record of milk in her class for 1953. Daphne also received a silver medal for producing 10,549 pounds of milk containing 327 pounds of butterfat in the 305 day division, as a senior two-year old. Daphne, who is classified very good, is the result of a 25-year breeding programme which has been responsible for an average production per cow of five pounds of butterfat.

When the breeding program had been under way for about ten years, several selected matings were made to test the purity of certain blood lines. These matings with levels of inbreeding ranging from 5 to 10 percent resulted in cows that were above herd average and that had no undesirable features. As a result of the first cautious crosses, further matings were made, gradually increasing the level of inbreeding in each succeeding generation. While Daphne is inbred 22 percent, other animals in the herd carry 25 percent inbreeding. Daphne's dam, Summerland Star's Arabella, is classified excellent and carries 17.2 percent inbreeding.

### ANALYSIS OF JAM SAMPLES FOR CANNED FOODS ASSOCIATION OF B.C.

— F. E. Atkinson

As in former years, duplicates of all samples of jam, to be shown at the canners' short course in Vancouver were analysed and examined in the laboratory. At the Canadian Food Processors Association in Victoria last February, regulations were endorsed requiring that only fresh and frozen raspberries could be used in pure jam. It was very interesting to note in the sample analysed from last season's pack that the quality of both these jams was much higher than when SO2 pulp could be used.

### PIE FILLING

— A. W. Moyle  
Work on apple pie fillings was continued employing a number of recently acquired thickeners. Of these, two types of waxy rice flour and a sample of pre-gelatinized arrowroot starch, used in conjunction with locust bean gum, produced a highly satisfactory filling.

Depending upon the variety and condition of the fruit, excellent apple pie filling can be prepared using 0.1 - 0.2 percent locust bean gum alone. With the soft fruits this does not hold true and a satisfactory filling cannot be prepared using locust bean gum alone. It is felt, that by the time the 1954 soft fruit crop is harvested, much valuable information re stability of thickeners will have been obtained from the apple pie filling studies. This information will be of considerable assistance in accustoming formulae to be employed on these fruits.

### FRUIT PIE FILLINGS

— Dorothy Britton

Fruit pie fillings have been made into pies in order to evaluate the various processes used in their manufacture. The meth-

od of preparing the pies was the same as would be used in the home.

Apricot, peach, prune and apple pie fillings were tested and made into standard two-crust 8 inch pies. A twenty-ounce can of filler was used for each pie. The filler was placed in pastry-lined pie tins. Spices or flavoring were not added as these may interfere with the natural flavor. If desired, these may be added by the homemaker to taste. The purpose of the test was to judge the true fruit flavor and texture of the finished product.

All products were scored by a test panel. Factors considered were amount of free liquid, color, flavor and texture. Very acceptable pie fillings were developed from the various fruits under test.

### TEA Dainties and Desserts

— Dorothy Britton

Although pie fillings were made especially for pie manufacture it was suggested that they may be suitable for other baked products. Some that have been tested include dairy tarts, jelly roll, fruit cobbler and bar-type cookies. All proved easy and convenient to make and met with test approval. It would appear that there are a great many uses for the fruit pie fillings that are under study.

### DEMONSTRATIONS BRING RESULTS OF RESEARCH TO TOMATO GROWERS

— L. G. Denby

The publicity and extension sub-committee of the tomato investigations committee, Okanagan Agricultural Club, has instigated an extension program designed to bring the findings of the investigations committee, to the attention of the growers by means of actual demonstrations in each tomato-growing district throughout the region. The staff of the Summerland station are co-operating closely with the district horticulturists of the B.C. ## Naramata Locals

Betty McLaren, daughter of Rev. and Mrs. R. A. McLaren, has been chosen by her classmates at the elementary school to reign as May Queen over the annual Victoria Day celebrations in Naramata. She will have as attendants Judy Littlejohn and Gillian Darters, Sharon Hill and Nancy Moncrieff will share honors as mistresses of ceremonies. The honored group is composed of pupils from grade VI at the school. The selection of the royal entourage is one of the major preparations for the holiday festivities. All other pupils in all grades at the school are currently rehearsing Maypole and other folk dances, and a number of traditional May time songs for the celebrations to be held at Manitou Park.

Rev. Douglas Pilkey, of Quesnel, accompanied by Mrs. Pilkey and family, arrived in Naramata on Monday to spend the next two weeks at the Christian Leadership Training School while serving here as the guest lecturer for the current two weeks' period.

Literature is being currently distributed in Naramata in preparation for the visit of the mobile TB clinic on April 1. The vital importance of periodic X-rays in the prevention of tuberculosis is stressed in the pamphlets. A committee composed of Mrs. Frank Luxton and Mrs. Charles Grimaldi is making arrangements for the April clinic which will be held under the sponsorship of the Naramata Women's Institute. Plans have been made for four clerical workers to assist at the clinic to be held in the community hall from 1 to 5 p.m. Everyone is urged to attend the clinic and help eradicate the spread of TB by early diagnosis.

Mrs. R. A. McLaren will be hostess to the March meeting of the Women's Federation of the Naramata United Church tomorrow evening at 8 p.m. Discussions at the Thursday meeting will centre around plans for the annual tea to be held in conjunction with the craft display at the Christian Leadership Training School on April 7.

Eleven local riding enthusiasts joined the trail jaunt arranged on Sunday afternoon by the recently organized Naramata Trail Riders Club. The hills up towards Paradise Ranch were the centres explored by the young people of the club who also enjoyed a picnic lunch during the afternoon.

Stewart Fraser, a graduate of the Leadership Training School, who is now a member of the staff at Tranquille, spent a few days visiting at the school this week.

Mr. and Mrs. J. S. Dicken were among the members of Edina Chapter, No. 33, Order of the Eastern Star, Penticton, who travelled to Hedley on Friday evening for the instituting of a new chapter in that centre.

Rev. R. A. McLaren, principal of the Christian Leadership Training School, left on Saturday for Toronto to attend a meeting of the executive of the Christian board of education of the United Church in Canada. Mr. McLaren plans to be away for the next ten days.

The next meeting of the Naramata Women's Institute will be held on Tuesday evening at 8 p.m. and not as formerly scheduled for Monday evening. The change was brought about by the hockey play-off games. Business of the meeting to be held in the community hall will centre around final plans for a rummage and plant sale to be held by the W.I. early in April with proceeds designated for the "Shower of Dimes". A demonstration on operating a sewing machine and the use of many of the newer materials in dress-making will be the main feature on the evening's program.

After living in Naramata for the past two years, Mr. and Mrs. W. J. Allan Vaughan and family left here recently to take up residence in Kamloops.

Mr. and Mrs. H. V. Partridge and Mrs. and Mrs. G. N. Wray were recent weekend visitors in Seattle.

### DOMESTIC WATER

City Clerk H. G. Andrew was asked by council, on Monday night, to give the present domestic water by-law a complete revision, and was given a free hand in bringing it up to date. His suggested revisions for a new by-law will then be placed before council for study.

## St. Stephen's W.A. Meets At Summerland

SUMMERLAND — Mrs. F. Y. Towgood reported to the Evening branch of St. Stephen's Anglican W.A. that a brass plaque in memory of the late C. J. Hudson and the late W. C. W. Fosbery, members and active workers in the church for many years. This will be dedicated at the confirmation service to be held on April 5 by Bishop Clark, Mrs. Towgood stated.

Mrs. C. Adams, in telling of the central welfare meeting, asked for donations of children's clothing as the stock is well-filled in other departments. A donation of \$3 was voted towards the Summerland zenann bed which is maintained in the Lady Kinnaird hospital in Lucknow, India.

Miss Mildred Clark said that a parcel had been forwarded to an Anglican clergyman overseas. Letters requesting nominations for the annual diocesan meeting to be held at Oliver May 17-18 were received as well as for a delegate and it is hoped that there will be representation from Summerland.

Refreshments were served following the business by Mrs. C. Adams and Mrs. W. C. Baker.

**ITCH RELIEVED IN A JIFFY**  
Very first use of soothing, cooling, liquid D.D.D. Prescription positively relieves law and itch—caused by eczema, rash, scalp irritation, chafing—other itchy troubles. Graciously, stainless, 43c trial bottle must satisfy or money back. Ask your druggist for D.D.D. PRESCRIPTION.

## FARM REPAIRS OR ALTERATIONS?

To help you improve your farm you may obtain bank loans for many purposes. For example, the purchase of seed, feed or supplies; to pay for general repairs, or the installation of a new plumbing system; for painting and decorating; drainage, irrigation and fencing; to purchase movable granaries and farm machinery; or to pay for the building of extra barns, stables or sheds. It's good business to borrow from BNS.

Come in and talk it over with your BNS manager.

• YOUR PARTNER IN HELPING CANADA GROW

Your BNS Manager is a good man to know. In Penticton he is A. G. Schell.

## Sports - Pourri

BY SID GODBER

It isn't over yet, but pardon me while I'll gloat. I hope the V's make it four straight tonight and then I'll gloat some more, but what a pity a team worthy of the V's steel didn't make the finals. Vernon Canadians gave us a better run in the semi-finals and in a best of seven series the Agarmen would have made it a really interesting series.

The Willoughby trophy seems destined to stay perched on a shelf in the Warwick brothers cafe for another year. I may be counting chickens before they're hatched, but the OSAHL champion chicken is three parts out of the shell now, and one good kick tonight and it will be fully hatched.

I imagine the Packers will play above their heads tonight in an effort to avoid the humiliation of a four straight loss, but if it so happens that the V's, every man of them, including trainer Harry Harris and the stick boys, get the flue bug or ptomaine poisoning or something, and the Packers really fly to win, it won't matter. One thing sure, the Packers can't take the V's four straight. So, if the Hergemen manage to shake out a win tonight all they'll be doing is giving Pentiction an extra home game with that extra gate to help the V's on their way.

This final series certainly lacks the thrills of the V's series with the Kamloops Elks last season. Remember that one? A seven game series decided with six seconds to go by Dickie Warwick's goal.

If I had to go hospital in hockey play-off time I'm glad the blow fell during this Kelowna series and not in last season's finals.

I'm always tickled up the back when the V's defence comes in for praise. There's been a lot of doubts expressed about the V's defence, but it's surprising how it keeps on delivering the goods.

I have the impression that the V's are not going at their best lick yet. A lot of reserve power to draw on when the going gets tough.

If you're accepting my belief that the Packers will be drawing their final pay checks this weekend, maybe tomorrow, then the question of the moment is, which team is going to win out in the Kootenays? Kimberley Dynamiters have the advantage of the final game of the best of five series on their own pond and that means a lot more to the Dynamiters than it does to most teams. Kimberley has proved almost unbeatable on their own ice so, if they knock out Willie Schmidt's Nelson Maple Leafs, they'll have a bit of a bulge on the V's in the Savage Cup playoffs. As I understand it, first two games of the B.C. finals will be played on the Kootenay champions' home ice.

B.C. finals, by the way, open April 1, a week Thursday, best of seven.

V's will likely find it harder going to get past the Kootenay champs than they're finding against the Packers, but I can't see anything in the Kootenays stopping them.

# Three In The Bag; One To Go For V's

## Willoughby Trophy Could Be The V's Prize Tonight

Unless Phil Hergesheimer's Packers have saved all their playoff hockey for this game, the V's will take their second shield on the Willoughby Trophy, as champions of the Okanagan Senior Amateur Hockey League, in the fourth game of the best of seven series at Kelowna tonight.

Numerous predictions of a tough final series against Packers have not materialized in the three games to date and the Hergemen didn't give any indication here Monday they are capable of pulling the fat out of the fire. In the three games to date, two of them iced on V's pond, the Warwickmen have outscored Kelowna 7-2, 6-5 and 5-2 for a lopsided total of 18 goals to 9.

Thursday was the eye-opener as V's, still under full steam from the Vernon series, walked off with a five goal margin. The Saturday game in Kelowna saw the V's win by just a single point but they held the whip hand all the way again. The Monday game looked as if Kelowna was ready to throw in the sponge — they have played much superior hockey during the season.

But a team with their backs tight against the wall is something else again and no doubt the Packer crew is just as anxious to keep away from losing the lunch bucket as any team in the Okanagan. Well, tonight is their last chance to show just how much longer they want to keep playing hockey. They'll have to go some to topple the V's this evening — there isn't a player on the team that isn't doing a stellar job and with coach Grant Warwick calling the plays, Packers face one of the toughest propositions of their career.

### Saturday Game

Kelowna's first home game of the finals was a disappointing affair for a couple of thousand Packer Backers as they watched V's outskate and outshoot Phantom Phil's crew to take a victory in the third period 6 to 5, Saturday. The win put Pentiction straight in front two games straight in the best of seven OSAHL finals.

Both Kelowna's Doug Stevenson and V's Ivan McLellan put together a top notch performance but more than one rakeshot twinned the twice for each club as the Warwickmen's five '31 times at the Kelowna net while Packers answered with 25 shots.

The extra speed V's pumped in to their game gave them the

edge over Kelowna for the full 60 minutes and by the end of the first period, the crucial session so far in the playoffs, V's led 2-1. Two goals late in the second period preserved the V's lead as they went into the final canto leading 4-3. Both clubs punched home two goals and with seconds left in the game, Hergesheimer pulled Stevenson in an unsuccessful gamble to tie the count.

Dick Warwick broke the goose egg for V's early in the first period as he hooked the puck into the corner of the net as he lay sprawled in front of the Packer cage. Jim Fairburn intercepted a Packer pass by Hoskins a couple of minutes later and drove it home from 15 feet out to put V's up 2-0.

Packers hit the scoreboard on a fluke shot at 13:53, after passing up some golden opportunities, as a long shot from the blueline by

### Thursday Game

Grant Warwick's V's roared over the threshold of the OSAHL final Thursday night at home to clobber Kelowna Packers 7-2 in a penalty plastered fixture that saw referees George Cullen and Bill Neilson hand out 33 sin bin tickets.

V's back and forechecked Packers into the ice, jarred their power plays with stonewall rear guard action and found the range for a 2-0 lead in the first period. Led 4-2 at the end of the second and salted the game away in the third with three more light blinks. Coach Grant Warwick potted two goals and single markers went to Ron Montgomery, Jack McDonald, Bill Warwick, Jim Fairburn and Jack McIntyre. Defenseman Kev Conway put together another super-charged performance, playing well over half the game.

Jim Fairburn shot V's out from 10 to 8:52 as he flipped home a rebound, put by Ernie Rucks and a minute later, the game blew sky high as a bullet on the boards between Don Cullen and Don Berry blossomed in to a full scale donnybrook. For

## Sum'land, Merchants All Square In Final Series

It's a brand new series in the Commercial league finals between the highly touted Summerland aggregation and the playoff-powerful Merchants with each club a win to their credit in the best of five series. Summerland took the first fixture 5-3 before a handful of spectators Friday but Merchants roared back Sunday to take the second game in overtime 5-4.

It was a rough, tough battle Sunday as Merchants showed Summerland, defending league champions, there was no easy road to the league title as they forced them into overtime to win 5-4.

Playing coach Jim McLean saved the game at the 3:50 mark of the overtime session on a relay from Fred Castron. Merchants took a 1-0 lead in the opening canto as Castron found the range for a Tommy White pass at 15:10. Castron scored his second goal of the contest unassisted at 4:30 to put his club two goals up. But the middle session ended all square as George Taylor blinked the light over Don Moog, unassisted, and at the half way mark of the period, Floyd Carston banged home a Taylor from Dick Steinhilger stunt to wipe the slate clean.

Summerland routers could see a victory shaping up as Al Hooker got into the scoring early in the final canto. He teamed up with Bill Eyre and Ross Campbell to put his club out front 3-2. Again at 5:45 Hooker socked the twine, on a pass from Fred Kato, and Summerland rode the crest until late in the frame. Barry Elman started Merchants on their way up as he scored on a solo effort at 13:42. Four minutes later Merchants overpowered Summerland's hold on the lead with Cliff Agnew taking the biggest slice of glory as he tied up the score on a play

With Elman. McLean's winning goal was in danger more than once during the ten minute overtime period but Merchants kept the door closed and their stellar performance gave the playoff picture a new look.

**First period** — 1, Merchants, Castron (White) 15:10. Penalties — Elman.  
**Second period** — 2, Merchants, Castron (unassisted) 4:30; 3, Summerland, Taylor (unassisted) 8:44; 4, Summerland, Castron (Taylor, Steinhilger) 11:45. Penalties — Corrigan, Elman, Croft.  
**Third period** — 5, Summerland, Hooker (Eyre, Campbell) 1:16; 6, Summerland, Hooker (Kato) 5:45. Penalties — Castron.  
**Overtime** — 7, Merchants, McLean (Castron) 3:50. Penalties — White.

**FRIDAY GAME:** Summerland held the edge through three periods to take the first game of the commercial final as they clashed with Merchants in a best of five series Friday night. A Taylor from Richardson scoring play late in the first period held good until the middle session, when Merchants' Wally Elman evened the count on a pass from Castron at 1:30. Coach Rocky Richardson sent the Summerland pucksters into the final canto with a one goal lead as he deposited the rubber behind

(Continued on Page 5)

## Ted Bowsfield Makes All Star B.C. Hoop Team

Ted Bowsfield, captain of the Pen Hi Lakers, earned provincial athletic recognition for himself and his team as he was picked as all-star guard in the B.C. inter-high basketball tournament held in Vancouver last Wednesday to Saturday.

Ted led his team to victory throughout the series as he paced Lakers in points in two out of four games and sparked the team on defence at all times.

The all-star team, as picked by a group of Vancouver daily newspaper reporters, consisted of D. Steen, South Burnaby, centre; J. Kootneko, Mission, forward; B. McComb, Trapp Tech, forward; J. Kabatoff, Mission, guard and T. Bowsfield, Pentiction, guard. John Kootneko, of Mission, was chosen as the most valuable player. He led his team from Mission to the B.C. championship and even with three players checking him in the final game he still scored sixteen points. Bowsfield scored forty-two points in all for the local team.

## Summerland Girls Win Okanagan Basketball Title

SUMMERLAND — Summerland high school girls' senior 'B' basketball team won the Okanagan mainline championship Saturday evening at Kamloops when they defeated Kamloops senior 'A' girls' team 68-66 in total points of a two game series. Score on Saturday was 46-31 for Kamloops, with a 37-20 tally for Summerland when the game was played here the previous week.

Star this weekend for Summerland was Irene Menu with 13 baskets and for the northern team G. Allan and J. Chalmers, who each scored 11 points.

## Jr. Shuttle Fans Will Vie For OK Title In Kelowna

The fourth annual Okanagan junior badminton championships, sponsored by the North and South Okanagan Badminton Associations will be held at the Kelowna badminton hall, Friday to Sunday, March 26, 27 and 28. Juniors from Kamloops to the border are expected to compete for the 15 trophies and make this tournament the most successful yet.

There are three age groups, under 14, under 16 and under 18 (as of October 1, 1953) and five events in each group: boys' and girls' singles, and doubles and mixed doubles. Play will commence Friday night at 7:00 p.m. for the under 16 and under 18 and Saturday morning at 9:00 a.m. for the under 14. Finals will be played Sunday evening and spectators are more than welcome, the committee says.

From among the winners of this tournament, players will be selected to represent the Okanagan at the B.C. Junior Badminton Championships to be held at Nelson, B.C. during the Easter week.

Last year 33 Pentiction Juniors competed at the tournament, in the under 14 events, Alan Garry and Don Robb were the runners up in the boys' doubles while Alan Garry teamed with Jackie Young to win the mixed doubles. In the under 18 events, Barbara Davenport was the runner up in the singles and teamed with Deirdre DeBeck as runner up in the girls' doubles.

Grant Warwick's V's all but tied the ribbon on the OSAHL championship at home Monday night as they held Kelowna Packers by the throat to score four goals in the first period and went on to win 5-2 for their third straight victory over the Hergemen. Packers didn't come up with the brand of hockey you expect to see in a final series and it was left to the V's to produce the thrills with some bad tempered antics from Mike Durban, the only Kelowna contribution.

## Packers Crushed In First Frame

Coach Warwick set a terrific pace for the V's in the opening period and showed them the way with a carefully triggered long shot from far out that went between Jack Kirk's legs and past Doug Stevenson at 5:08. Just over a minute later brother Bill clicked on a goalmouth scramble with Bathgate and Conway. The writing was on the wall by then — Packers just didn't have it.

Dick Warwick put V's three up at 16:39 on a beautiful solo effort that had Stevenson cold

and Jack McDonald polished off a hard driving period as he slammed home a relay from Ernie Rucks at 18:04.

Grant Warwick dug the puck out of the Kelowna corner, wheeled out in front and deposited it behind Stevenson at 9:25 of the second period to wind up the Pentiction scoring. V's began playing for the breaks in the second but held to the rugged backchecking, which, combined with stonewall rearward action, was too much for Kelowna gunners.

## Two Quick Goals For Hergemen

V's took the pressure off Kelowna briefly in the final canto and it cost the Warwickmen two goals as Phil Hergesheimer, with Joe Connors and Don Smith, poured in to demolish Ivan McLellan's shutout. A little over a minute later Jim Middleton found the range for a Ken Amundrud relay but V's promptly tightened up again and the Packer machine stalled.

Mike Durban was in a nasty mood from the moment he hit the ice and managed to promote two minor squabbles in the second period. He, McAvoy, and Rucks went to the sin bin then it was Grant Warwick he tangled with but the charges were all minor calls. Many of those that jam-packed Pentiction arena filed out after the game with the feeling that the refereeing of George Cullen and Bill Neilson left something to be desired — some thought it downright crummy. In all, 15 penalties were handed out with ten of them going to V's as some of the rough stuff went unnoticed and seemingly trivial incidents got the finger.

The OSAHL's all star choice of Doug Stevenson didn't stack up with Ivan McLellan's performance by a long shot as the V's custodian turned aside 26 of the 28 shots fired at him while Pentiction collected five goals on just 24 tries.

## Another Big Defense Job By V's

Another stellar, and lengthy performance by Kev Conway earned him plaudits from the house. . . . George McAvoy also displayed sterling stuff. . . . both Dino Mascotto and Ron Montgomery saw action on the defense line Monday and showed well. . . . Jack McIntyre came up with one of his special rink long scoring plays that sends the fans wild but just as in the Vernon series, it was ruled no goal. . . . the fans went wild all right. . . . Dickie Warwick stopped a lot of Kelowna plays before they got started with a full night of fierce for and backchecking. . . . masked Jack Kirk left the ice blood dripping from a skate cut on the nose but came back to "action".

**SUMMARY**  
First period — 1, Pentiction, G. Warwick (B. Warwick) 0:36; 2, Pentiction, B. Warwick (Bathgate, Conway) 6:23; 3, Pentiction, D. Warwick (unassisted) 16:39; 4, Pentiction, McDonald (Rucks) 18:04. Penalties — Rucks, Montgomery, Durban, B. Warwick.

Second period — 5, Pentiction, G. Warwick (unassisted) 9:25. Penalties — Durban 2, Rucks, McAvoy, G. Warwick, B. Warwick.

Third period — 6, Kelowna, Hergesheimer (Connors, Smith) 8:34; 7, Kelowna, Middleton (Amundrud) 9:42. Penalties — Castron, D. Warwick, Smith, Mascotto, McAvoy.

## Lakers Chosen Most Sportsmanlike Team Of B.C. Basketball Tourney

Pentiction High School Lakers placed seventh in the B.C. inter-high basketball tournament held last week in Vancouver but the boys brought back to Pentiction a trophy which should make every citizen of this town proud of its representatives. They earned the Pacific Mills trophy for the most sportsmanlike team at the tournament.

The Lakers started off on the winning side as they defeated Esquimalt 37-28 in the first game of the tournament. The Esquimalt team, second place winners on Vancouver Island, could not hold the victory seeking Lakers as Gordy May and Ted Bowsfield scored baskets after basket and the best of the team checked closely. The Lakers were ahead by only two points at half time but they put on the pressure in the remaining sixteen minutes and won 37-28.

In the second game the story was different as the Lakers drew the reigning champions from South Burnaby. The boys from Vancouver showed the value of experience as they held the Lakers down throughout the whole game. Lakers controlled most of the play but the Burnaby crew made their shots count while the locals were missing many sure baskets. The champions, Vancouver's number one team, paced by Don Steen with fifteen points, led the Lakers all the way with the quarter time score standing 8-8, 15-16, 25-24, 34-36.

In the consolation game that followed with West Vancouver, the Lakers started hitting their old form again and won out 37-33. Ted Bowsfield played his way onto the all-star team in this game mainly as he sank sixteen points to lead the scoring. The Lakers felt they should have won this game by more but could not get rolling until the second half. Gordy May potted eleven for the winners.

The Lakers ran into another of the top-seeded teams, Victoria, in their final game and gave them a see-saw battle throughout that gave Victoria the nod 41-38. The young team from Victoria played a faster game than the other three teams, Pen Hi and the locals ran into trouble with fouls. With only four minutes remaining to play the Lakers were leading by seven points when Gordy May picked up his fifth foul which put him out of the game. Two of the other Lakers had four fouls and couldn't get enough spark together to stop the fighting Victorians.

Lakers were extremely proud to be chosen the most sportsmanlike team award which prov-

ed that even though they didn't win they played fair and clean at all times.

## Early April Will Feature Local Curling At Arena

Arena manager Fred Madden announced Tuesday that the Pentiction high school students are organizing a five day curling event beginning April 5. On April 10 the younger generation will wind up with a one day bonspiel and to date a total of 24 rinks have registered.

The students will curl only after school during the first five days and Mr. Madden said that the afternoons would be available for ladies and mixed rinks with a number of scrub games in the evening.

Another curling event of paramount interest is shaping up for April 3 and 4. Mr. Madden announced these dates for the men's localspiel and further details will be available next week.

## Westbank Defeats Pen High In OK Volleyball Meet

Pentiction high school representatives in the Okanagan Valley senior boys volleyball tournament found the going too tough last Saturday in Kelowna as the George Pringle (Westbank) high school sidelined them to take top honors.

The Westbank team started out strong defeating the winners of the northern division, Vernon, in two straight games.

The Pentiction boys ran into a stronger team in their match with Vernon but subdued them 14-16, 15-12 and 15-11. When Pentiction met the George Pringle lads, they appeared to be going stronger than ever and the locals took the first game but the central winners came back with victory in their eyes and walloped the southerners 15-3 in the second game and finished things off with a steady 15-9 victory over the Pen Hi team in the deciding game.

The Westbank girls also won valley honors as they defeated Vernon and Oliver.

## Wheelchair Hoop Exhibition Coming

The first B.C. interior exhibition of wheelchair basketball, a live wire sport played by a group of good sports, who are either polio victims or have lost the use of their legs through accident, has been slated for the Pentiction high school gym Sunday, April 4.

Two teams from Vancouver, the Dreck Power Glides and the Ferguson KW's, will play here under the sponsorship of the Pentiction Klansmen club. Pat Mulligan was instrumental in making the arrangements and proceeds will aid the fight against polio.

## On The Sidelines

BY BOB MORRISON

It is not often that you can catch Art Fisher, minor hockey malmispring, standing still long enough to talk very much but I have to say that the other day — here is what he had to say:

"Minor hockey has had its bright moments, also its headaches... as secretary treasurer, I usually see the darkest side of the organization but get the inspiration to keep going when a few things happen that the general public never sees or hears about... when the volunteer coaches turn out after game, help with the refereeing, time keeping and the numerous tasks that have to be done to run an organization where over 300 youngsters participate in their real encouragement... there are also the men like Charlie McDermott who never get any glory but are always there to lend a helping hand... and Fred Madden, the arena manager, who has again been looking after over 100 youngsters between the ages of 7 and 10 on Saturday mornings for two hours from seven a.m. to nine a.m. there's my wife, Irene, who is always at the bantam games to keep score with the help of a few of the hockey lads to keep time... when the bantams were slated to go to Kelowna to play in the valley playoffs, the sweaters were turned in on Saturday night (after being in use all winter, were fairly dirty) and she washed 15 sets of uniforms by hand on Sunday morning so the boys would look clean and neat when they made their appearance at Kelowna... I could not have been more proud of them if they had been my own and even though they lost, at least Kelowna got the impression that we were a clean cut hockey team."

It is always a pleasure to get information like this as it illustrates the basically sound foundation upon which sport is being built here. Comments, the boys make is indication that they appreciate the assistance given but I sometimes wonder if the parents do to the extent they should.

Sam Drossos had a good turnout at King's Park last Sunday for the first baseball workout and feels confident that the season will be another headline year for the Athletics. There is another workout this Sunday, same time, 1:30 in the afternoon. The season is still early and Sam is moving into the spring training slowly.

And speaking of ball parks, the Little League expect to get into full swing on the Queen's Park site shortly and those that contributed to the Kiwanis sponsored benefit banquet will see the tangible evidence their support has made possible.

All these people had agreed to put up \$150 each, towards the curling rink.

So Mr. McKay is confident of the future, and so is his executive, elected at that same meeting.

As a matter of fact, he has disclosed to the Herald that the group have already ordered 32 pairs of matched rocks. The order has been confirmed, and the rocks will be here by October 1.

"And we'll have the rink for the rocks," laughs Mr. McKay.

It was last February 17 that a small group got together, and determined to launch the curling club's cause again.

At that meeting, those in attendance were Messrs. Jack McKay, Bob Cranna, T. T. Swanson, Bill Hark, Les Gibbard, A. Mather, Pat Hines, Harry Hines, Bertrum and Koenig.

This original group made the canvass that resulted in the 114 subscribers at the second general meeting held last week.

Mr. McKay was confirmed as chairman, and later elected as the group's first president.

"I know of nobody who'd be happier to see in that post," remarked A. S. Bella. "He's a wonderful curler, and he's worked hard for years to try to bring curling here."

The warm applause of the entire meeting endorsed the comment, and Mr. McKay was elected, the only nominee for the position.

Six other men were chosen by ballot and they comprise the first executive of this association.

After the general meeting, they met as an executive and, from their midst, chose Allan E. Mather as the vice-president, and W. R. Cranna as secretary-treasurer. Others on this executive are C. W. Nicholl, Harry Hines, Dick Parmley and Al Kenyon.

Granite Club Ltd., the forerunner of the present organization, cannot serve the purpose of the present organization, it was

## New Curling Rink Here Assured At Enthusiastic Donors' Rally

"There's going to be a curling rink here all right, and it'll be a good one."

Jack M. McKay, newly elected and popular president of the local curling association, made this comment at the largely attended and enthusiastic session held in the Incola Hotel last week.

There were a lot of things to back up his assertion.

First of all, there was the crowded meeting.

"It does your heart good to see a big and representative number of men like this," said Mr. McKay, "particularly when I remember some of the attempts at meetings in the past."

There was something else too, and something very important.

On the table in front of Mr. McKay were a large number of cheques. Their aggregate value came to many thousands of dollars, and they represented as many as 114 subscribers to the originating fund.

All these people had agreed to put up \$150 each, towards the curling rink.

So Mr. McKay is confident of the future, and so is his executive, elected at that same meeting.

As a matter of fact, he has disclosed to the Herald that the group have already ordered 32 pairs of matched rocks. The order has been confirmed, and the rocks will be here by October 1.

"And we'll have the rink for the rocks," laughs Mr. McKay.

It was last February 17 that a small group got together, and determined to launch the curling club's cause again.

At that meeting, those in attendance were Messrs. Jack McKay, Bob Cranna, T. T. Swanson, Bill Hark, Les Gibbard, A. Mather, Pat Hines, Harry Hines, Bertrum and Koenig.

This original group made the canvass that resulted in the 114 subscribers at the second general meeting held last week.

Mr. McKay was confirmed as chairman, and later elected as the group's first president.

"I know of nobody who'd be happier to see in that post," remarked A. S. Bella. "He's a wonderful curler, and he's worked hard for years to try to bring curling here."

The warm applause of the entire meeting endorsed the comment, and Mr. McKay was elected, the only nominee for the position.

Six other men were chosen by ballot and they comprise the first executive of this association.

After the general meeting, they met as an executive and, from their midst, chose Allan E. Mather as the vice-president, and W. R. Cranna as secretary-treasurer. Others on this executive are C. W. Nicholl, Harry Hines, Dick Parmley and Al Kenyon.

Granite Club Ltd., the forerunner of the present organization, cannot serve the purpose of the present organization, it was

### V's Saturday Game At Kelowna

(Continued from Page 4)

Don Cillej carried off a skate and dribbled by McLellan.

Frank Hoskins set the Kelowna fans jumping midway through the second period as he scored unassisted, with V's a man shy, when Conway went down to block the shot but only got a piece of it. It was Joe Connors who tried on hero's robes for a brief minute as he socked the twine on a play with Don Smith to put Kelowna in the lead 3-2.

Packers barely got the lead off being out for one minute and 40 seconds — when Jack McDonald slammed home a passout from behind the Kelowna net by Ernie Rucks. Conway collected a goal with his sizzling shot from the blue line as it bounced through a maze of players to put number four on the scoreboard for V's, as the middle period faded.

Long shots were the order of the night. Paul Brilliant opened the final canto with a stinging slap shot from outside the V's blue line that went by McLellan and unseen to land the score once again. Grant Warwick, working with Jack McDonald, lifted the game out of reach as he triggered a short pass from a success in the Kelowna corner and at 16:50 he made no mistake on a beautiful passing play with

McDonald as they dealt with Stevenson unmolested.

Packers had the final word at 19:24 when Joe Connors deposited the rubber in the Pentiction cage while V's George McAvoy sat in the penalty box. Packer Backers hollered for that tying goal but even with the two man advantage, gained when Stevenson left the net, the Hergesholmer couldn't break through V's defense in the tense final few seconds.

### SUMMARY

First period — 1, Pentiction, D. Warwick (McIntyre, B. Warwick) 5:25; 2, Pentiction, Fairburn (unassisted) 7:13; 3, Kelowna, Cully (Hergesholmer, Smith) 13:53. Penalties — D. Warwick, Cully, Hanson, Carlson, Conway.

Second period — 4, Kelowna, Hoskins (unassisted) 11:40; 5, Kelowna, Connors (Smith) 15:00; 6, Pentiction, McDonald (Rucks, Fairburn) 16:46; 7, Pentiction, Conway (unassisted) 18:43. Penalties — Leck, Berry, Bathgate, Kirk.

Third period — 8, Kelowna, Brilliant (unassisted) 3:24; 9, Pentiction, G. Warwick (McDonald) 5:06; 10, Pentiction, G. Warwick (McDonald) 16:50; 11, Kelowna, Connors (unassisted) 19:24. Penalties — Conway, McAvoy, McCully.

for V's second goal as the Warwickmen played three men to four. McDonald carried the puck in but Kirk brought him down and the pair sprawled on the ice as Bill did the trick.

Jim Middleton produced Packer's first goal on a beautiful scoring play with Ken Amundrud at 2:30 of the second frame. But Grant Warwick came back to drive a long high shot to the twine at 5:52 to preserve the margin on a play with brother Bill.

Again it was a long string of penalties, and with V's two men short, Don Smith converted a short pass from Phil Hergesholmer and McCully for Packer's second and final marker.

That was the play of the night. Grant Warwick, George McAvoy and Conway put up a terrific defense as the full Packer crew huddled rubber at the Pentiction twine for a long minute and finally broke through.

With less than a minute to go, Bill Warwick zoomed in from centre ice to flip a loose puck past Doug Stevenson at 12:45.

PRESIDENT J. M. MCKAY

### Mammoth Gym Display At Pen High On Tuesday

Next Tuesday everyone in Pentiction interested in athletics will be able to see what the future has in store as the Pentiction high school produces its biennial mammoth gym display in the new Pen HI gym.

This display is put on every two years for the raising of funds for extra sports equipment for the high school. It also affords an opportunity, that all parents should take advantage of, to see part of the physical education program of the high school in action.

The evening will consist of all forms of tumbling, apparatus rings, parallel bar and high bar, box horse and chair balancing acts. The crowd thrillers of two years ago will also be back in the form of the giant pyramids with up to 30 boys forming one human structure.

The girls of the school will give demonstrations of old time dancing. A comedy routine will be put on by Pen HI's present athletic leaders, the Lakers basketball team.

The show of two hours duration will get underway at 8 p.m. under the directorship of Maury Moyle, Bill Boyd, Mrs. Herbert and Miss Friezen.

The girls of the school will give demonstrations of old time dancing. A comedy routine will be put on by Pen HI's present athletic leaders, the Lakers basketball team.

The show of two hours duration will get underway at 8 p.m. under the directorship of Maury Moyle, Bill Boyd, Mrs. Herbert and Miss Friezen.

### List Of Members

Original subscribers to the membership of the new curling association in this city were revealed at the meeting held in the Incola Hotel on Wednesday evening of last week.

These donors have each agreed to take a "membership" at \$150.

The list will be kept open until March 27. Then it will be closed. Further plans for the operation of the club will be worked out at a general meeting to be held March 31.

The following names were on the list as read out by the group's president, J. M. McKay:

Geo. Patterson, E. S. Bearcroft, G. Brockhouse, E. Cox, T. H. Myers, M. J. McDonald, H. R. Croombs, P. L. Gibson, G. V. Izander, M. E. Adams, A. N. Volden, R. Faulkner, W. E. Stewart.

R. C. Power, E. Brown, E. Lockhart, J. S. Rozander, I. Chapman, Chas. Crawford, L. Corrigan, Lloyd McDonald, J. A. Conway, C. Marshall, W. Shephard, H. W. Kinsey, V. E. Amos, Mrs. W. R. Cranna.

W. R. Littlejohn, R. A. Cranna, Jack Littlejohn, J. W. Bolton, W. R. Cranna, Alf McDonald, L. H. Hartley, T. H. Ryan, R. L. Carter, C. A. Freeman, L. S. Ward, H. W. Kirkby, T. H. Hines, R. F. Ralikes, A. G. Schell.

F. Sanders, H. Geddes, Dr. T. F. Parmley, L. Gibbard, W. H. Cumberland, E. H. Amos, Bill Riddell, Dr. J. Day.

Geo. Lang, P. Pauls, J. Thom, L. Hill, G. King, J. M. McKay, J. Brittain, H. W. McGinnis, Q.C. W. J. Lawrence, CKOK (2).

G. J. Rowland, B. Schram, T. W. Bryant, P. Mather, W. A. Carse, L. Goodfellow, John Lawson, T. Walker, Bob Patterson, C. Burich, J. B. Feeney.

Geo. Cady, A. K. Bent, Geo. Arsens, E. H. Cormier, C. L. Jacobson, Hugh Lynch, L. A. Grove, Stan Gulle, M. Halverson, Dick Parmley, Kewanee Roofing, Bob McDougall, J. Carson.

Al Mather, Sam Drossos, W. Sanders, C. W. Nicholl, D. L. Raincock, Ken Lambert, Alay S. Bella, Ltd., Bill Johnson, Warwick Bros., Jas. Koenig, Harry Faulkner, W. Dakus.

Nelson Rumley, M. F. Lyman, Pat Hines, Pat Moen, Ron Carroll, W. J. Kraus, W. J. Hack, A. J. Cummings, P. K. Simpson, Chas. Wylie, Richard Johnston.

The girls of the school will give demonstrations of old time dancing. A comedy routine will be put on by Pen HI's present athletic leaders, the Lakers basketball team.

### Commerk Finals

(Continued from Page 4)

Moog unassisted late in the frame.

Summerland turned on the heat to wrap up the fixture with three goals with just two replies from Merchants. Taylor from Stelinger and Croft, Eyre from Campbell, and Kato from Hooker and Eyre kicked the Summerland tally up to five goals.

Cliff Agnew combined with Jim McLean for Merchants third goal and playing coach McLean stepped into the scoring picture at 10:35 on a play with Nyen and Agnew to complete the effort. It was a high powered game every minute of the way but the Summerland machine was working too smooth for Merchants that night.

### SUMMARY

First period — 1, Summerland, Taylor (Richardson) 19:10. Penalties — Campbell.

Second period — 2, Merchants, Ehman (Castro) 1:30; 3, Summerland, Richardson (unassisted) 14:35. Penalties — Selgrist, W. Ehman 2.

Third period — 4, Summerland, Taylor (Stelinger, Croft) 3:25; 5, Summerland, Eyre (Campbell) 5:30; 6, Merchants, Agnew (McLean) 5:45; 7, Merchants, McLean (Nyen, Agnew) 10:35; 8, Summerland, Kato (Hooker, Eyre) 13:47. Penalties — Carston, Getz.

K. A. Kenyon, T. T. Swanson, Don Taylor, Harold Foreman, Geo. Christie, A. J. Ellis.

Phone 4002Directional Sign  
To Guide Traffic

Council traffic committee, on Monday night, was given power to act on the request from the Penticton Board of Trade that a directional sign, pointing to the highway, be erected at the corner of Lakeshore Drive and Power street.

It was pointed out that many cars, following the "old route" by astray, and that the placing of a sign at this point would lead them back through the through route.

## The Member Reports

By O. L. Jones, M.P. for Yale

The new Criminal Code is still passing through the House in Committee stage. So far, it has been changed only on very minor points. This is understandable as the draft presentation that we are dealing with is the result of years of work by the Legal Branch of the government and the changes are based on past administrative experience of judges, magistrates and police. One of these changes dealt with the term "vagrancy". The original draft implied that anyone without money or a job was termed a "vagrant" under the Act. This, naturally, placed a large number of genuinely unemployed workers in a very unfair category. This definition was modified to exclude bona fide people, temporarily out of work. One other change was the banning of sale and possession of "spring" or "switch" knives. These knives have been featured more and more in recent court cases where youths have been drawing this weapon and attacking other youths. From now on, a severe penalty will be imposed on any one illegally carrying such a knife. The really contentious parts of this Bill are still to come before the Committee.

lons. Censorship is under provincial control and varies in its effect from province to province — Quebec being, possibly, the most strict in the observance of certain regulations.

The Department of Public Works has been completely changed regarding its chief officials. The new minister has only been at the helm since the last election in August and the deputy minister was appointed at the same time. Several heads of other departments were retired or promoted and a new policy has been laid out where, in all items appearing in the current estimates will be carried out in that year. This would avoid the flasco attending the promise of a public building, such as that in Vernon, whereby the Public Works Department purchased property and made a public statement that the building would be planned, contracts let and work started last year. Now we find that an item of \$100,000 that appeared in the estimates last year has not been spent and has not been reduced in the current. Estimated to \$25,000 — just enough to cover preliminary work on plans, etc. Several speakers charged the government with showing favoritism in their building programs. Mr. Shaw of the Social Credit gave a list of projects that were in last year's estimates and have now disappeared. He drew to the Minister's attention that, prior to the last election, some of his electors were chanting "Shaw, no public building, no Shaw, a public building". He claimed that these people were trying to convince the electors that, as long as he was their Member of Parliament, they would never get a public building in Innisfail.

The National Housing Act will be operating almost immediately, now that the government has announced the rate of interest for mortgages. This rate is to be 5 1/2%, an increase of 1/2% over the old Act and 1/4% less than was asked for by interested groups. Later on, details of the scheme will be available through the local National Housing office situated in Kelowna or by enquiring of your local bank manager.

The estimates for the department of public works were in committee, the first item being the proposal to move the National Film Board from Ottawa to Montreal. All of the Members of the Opposition Parties as well as George McIlraith, the Liberal Member for Ottawa West, opposed the transfer but the government majority pushed the estimate through. We are now speculating as to the reaction of the employees themselves who are thus forced to break up their homes in Ottawa and find a new one in Montreal. Already, some have made up their minds to leave the Department rather than move. The employees, naturally, are worried because Mr. Duplessis has decided to impose his own income tax of 10 percent on Quebec residents. Many of these National Film Board employees are in the income bracket group affected. Others wonder what effect the present Provincial Board of Censors in Quebec will have on National Film Board product-

tion. The Dominion Bureau of Statistics informed us that stocks of potatoes, onions, carrots, celery and pears in cold and common storage at the first of March this year were larger than at the same period last year. I mention this to give the background for the situation that we are faced with in British Columbia through the virtual dumping of American vegetables into Canada.

This week Mr. John of New Westminster and also myself, two or three weeks ago, brought to the attention of the government the large stocks of potatoes that were being dumped on the Vancouver market. As a result, the Minister of National Revenue, Dr. McCann, has ordered an investigation into the situation and if dumping has been proved, steps will be taken to remedy the situation and protect our own producers who have to dispose of a large quantity of their products. Earlier this year, a Bill was passed in the House at the request of the Textile Industry that gives power to the Department of National Revenue to prohibit the importation into Canada of textiles at a lower cost than those prevailing on the home market. In other words, to prevent dumping. Under this same Act and by Order-in-Council, the Minister of National Revenue could, if he wished, take similar steps to protect the primary producers of British Columbia.

MISS MARY IWASAKI, left, of the Quebec Japanese Citizens' Association, presents a bouquet to the wife of Sadao Iguchi, Japan's retiring Ambassador to Canada, while the ambassador looks on. The couple, with their daughter, changed trains in Montreal on their way from Ottawa to Washington, where His Excellency will serve as Ambassador to the United States.

## KEREMEOS

Mr. and Mrs. Gordon Barker entertained a party of little friends in honor of the birthday of their son, David, on Sunday.

Mrs. R. E. Turner, of Kamloops, District-Deputy Honored Royal Lady of the OORP was the guest of honor at a dinner on Wednesday evening at which Mrs. C. G. Hodgson, Honored Royal Lady of Lodge No. 80 was hostess; other guests included Past Honored Royal Ladies of the Lodge, Mrs. R. W. Sheridan entertained at the home of Mrs. Turner on Thursday afternoon at the home of Mrs. R. B. Sheridan, when the guests were members of the local Lodge.

Officers and members of OORP Lodge No. 80 were inspected at their general meeting on Thursday evening by District-Deputy Honored Royal Lady Turner of Kamloops. There was an excellent attendance at the meeting and two new members, Mrs. Reg. Bean and Mrs. Larry Shaw were initiated.

The following attended the monthly meeting of Girl Guide Leaders and members of the lo-

Awards For Forestry Students  
To Be Given By Trade Journal

Three awards to undergraduate students in Forestry and Forestry Engineering at the University of B.C. will be given by the British Columbia Lumberman.

Announcement of the establishment is made, subject to the approval of the UBC senate, by the University of British Columbia and the forest industries trade journal, "The British Columbia Lumberman".

An award will be given in each of three fields; logging, utilization, and general forestry. Each award will consist primarily of publication of winning essay from each field by the British Columbia Lumberman, with the author receiving payment at double the journal's regular rates for his contribution. In addition, a certificate of merit, together with an extended complimentary subscription to the journal, will be presented to each winning author.

Summer essays, which are part of the normal requirements in Forestry and Forest Engineering, will be judged by the staff of the Faculty of Forestry in cooperation with Howard T. Mitchell, publisher of the lumber magazine. Judging will be based on academic quality, the essay's topical importance to the forest industries, and its readability. In the event that no essay achieves a high standard in all three

factors, no award will be given. Judging will be completed by February 15 of each year, and awards will be announced in the April issue of the British Columbia Lumberman. Publication of the winning essays will be in the same issue or at the discretion of the publisher of the journal.

## NEW APPOINTMENT

A. D. (Art) CAMERON

APPOINTMENT of A. D. (Art) Cameron (above) as Resident Manager of Sylvia Hotel is announced by Hilliard C. Lyle, Managing Director. Mr. Cameron, formerly Assistant Manager of Hotel Vancouver, has just returned to this city from Regina, where he was Senior Assistant Manager of Hotel Saskatchewan.

## TAX CORNER

Where Do I Go From Here?

## PART-TIME OR "GENTLEMEN" FARMERS

**Q.** I am permanently employed full-time by a firm as an accountant but I also operate a small farm on which I live. I understand I may deduct my farm losses from my salary in computing my income for taxation purposes. Is this correct?

**A.** No. The Act provides that where a taxpayer's chief source of income is either farming or a combination of farming and another undertaking he may deduct from his income the lesser of \$5000.00 or one half his farm losses before providing for Capital Cost Allowances (Depreciation).

## EMPLOYED TAXPAYERS/EXPENSES

**Q.** I am employed by a garage as a mechanic and am required by my employer to provide my own hand-tools. During 1953, I spent considerable sums to replace tools broken and worn-out. May I deduct the cost of these tools for Taxation purposes?

**A.** Yes. The Income Tax Act provides that you may deduct the actual cost of supplies which were consumed in the performance of your duties and which you were required to supply under your contract of employment.

If you have a personal Tax problem you are invited to contact

Loud in their praises of  
VAUXHALL!

**Low Cost Operation**  
Being supplied at my Vauxhall's fine and powerful engine, I've never had any trouble about lack of power. The car is a joy to drive for all my driving. I've had my Vauxhall for six years.  
Eric C. Blandford, St. John's, Nfld.

**Smooth, Smooth Ride**  
I have travelled 6,750 miles over some of the roughest roads in Alberta, but have never had any reason to be concerned about lack of power. The car is a joy to drive for all my driving. I've had my Vauxhall for six years.  
W. J. Clarkson, Calgary, Alberta.

**Sure Fire Cold-Weather Starting**  
Winners in the Maritimes can be very severe at times, but even in the coldest morning, I never have trouble starting my Vauxhall. Also, I have taken a number of long Vauxhall trips from a performance standpoint, it is tops.  
Reginald I. Triton, Moncton, N.B.

**Easier Parking**  
I am particularly pleased with its performance and ease of handling and parking in city traffic. This is my third Vauxhall.  
Miss Mary Bond, R.N., Toronto, Ontario.

**Ample Luggage Space**  
I have averaged over 30 miles to space for luggage in the trunk. Any five people can easily enjoy any length of trip.  
Kerry Pennell, Oakville, Ontario.

**Greater Roominess**  
The most outstanding feature I have found has been the exceptional roominess. I wanted a car that would not only provide comfortable transportation, but economy as well. Vauxhall has more than measured up to these standards.  
B. C. Roche, Vancouver, B.C.

A  
GENERAL MOTORS  
VALUE

These are just a sample of the enthusiastic letters we have received from satisfied Vauxhall owners all across Canada. They prove that a Vauxhall is certainly worth investigating, so why not find out all about this truly fine car for yourself? Your Vauxhall dealer will be pleased to arrange a demonstration drive for you at your convenience. Give him a call today.

## Summerland AOTS Holds Box Social

SUMMERLAND — Summerland AOTS went back to the box social idea for an evening's entertainment on St. Patrick's Day when boxes were auctioned at a fairly high price and brisk rate by E. E. Bates, J. W. Mitchell and N. May under the scrutiny of J. Sheeley and Shannon Snow.

This proved to be a good "mixer" and the owner of the box was supper partner of the buyer.

G. A. Laidlaw, president of the club, was chairman and on the program was an amusing skit, "The Mighty Midgits", with Mrs. Ross McLachlan, Mrs. G. A. Laidlaw, Mrs. Leslie Rumball and Mrs. A. J. Dunsdon in the cast.

## Legion Last Rites For Elderly Man

Funeral services were held Monday for Harry Bridge who passed away last Wednesday, at the age of 74 years. He resided at 487 Railway street.

He is survived by a sister, Charlotte, in England.

Rev. A. R. Eagles officiated at funeral services with committal in the Field of Honor Plot, Lakeview Cemetery.

Canadian Legion graveside services were observed.

Penticton Funeral Chapel in charge of arrangements.

A sing-song and music by the Mountain Rascals amused everyone.

Mrs. Lionel Fyfe was accompanist and speaker was N. May who took his native Ireland as the topic for his talk.

## From the Wisdom of Great Men . . .

### Adam Smith

The Statesman who should attempt to direct private people in what manner they ought to employ their capital would not only load himself with a most unnecessary attention, but would assume an authority which could safely be trusted, not only to no single person, but to no council or senate whatsoever, and which would nowhere be so dangerous as in the hands of a man who had folly and presumption enough to fancy himself fit to exercise it.

### Sir Winston Churchill

We must beware of trying to build a society in which nobody counts for anything except a politician or an official—a society in which enterprise gains no rewards and thrift no privilege.

### General Gordon

England was made by adventurers, not by its Government, and I believe it will only hold its place by adventurers.

## Summerland St. Andrew's Club Hears Entertaining Speaker

SUMMERLAND — Miss Ruth

Adams of the social welfare department was an entertaining speaker at last week's meeting of St. Andrew's Service Club.

She brought to members special bits relating to her seven month trip to the Old Country during which she crossed the continent through the States, sailing from eastern Canada to Liverpool.

Her journey took her to England, Scotland and the continent, visiting many places of historic interest which became real to her audience by personal commentary on the lovely colored slides she had taken herself.

Coronation films highlighted the program. She displayed souvenirs which had been selected as representative of each country she toured.

Opening the meeting with devotion, Mrs. F. E. Brinton took as her topic, "The Way of the Cross."

Mrs. George Washington, the president, said the date of the

Kamloops-Okanagan presbytery meeting to be held in Summerland shortly, had not been received.

Allocation of \$7.50 was passed to the World Day of Prayer local committee, and \$10 to the current Red Cross campaign.

Mrs. Fleck of Vernon, was announced as the speaker for the April meeting.

It was decided to send another parcel of clothing to Korea. Need for practically all kinds of clothing except shoes, and particularly for men and boys was stressed, as well as urgent appeal for blankets, quilts and afghans.

Subject to the approval of the Federation the money from the congregational supper will be used to buy kitchen equipment.

The president asked for suggestions for a money-raising project to be held before June.

Dainty refreshments were served by a committee headed by Mrs. Leslie Rumball.

## Revised Three-Party Contract Mailed To Registered Growers

### Revelstoke Opposes Bridge At Kelowna

REVELSTOKE — A resolution from Kelowna asking endorsement for the proposed bridge across Okanagan Lake at Kelowna was turned down by the Board of Trade at its monthly meeting here recently.

The well-attended meeting felt that \$12,000,000 equalled by a similar amount from the Dominion under the Trans-Canada Highway agreement would go a long way towards new construction on the long overdue road.

Once the Trans-Canada Highway has been built, speakers intimated they would approve the bridge.

It was also felt that the present ferry service between Kelowna and Westbank was a good service and was adequate until such time as the Trans-Canada was brought up to standard.

Distribution to its membership of the revised three-party contract now has been completed by the British Columbia Fruit Growers' Association. The contract, three copies to each, has been mailed to the 3,692 registered growers in the Okanagan and Kootenays for their signatures.

When the contract has been signed by the individual grower he will return it to the head office of the BCFGA in Kelowna. From there it will be passed to the shipper for signature and then to the Central Selling Agency, B.C. Tree Fruits Limited. As the name implies, three parties must sign the contract.

In addition to the general distribution extra copies have been supplied to the secretaries of all BCFGA locals and to all packing houses, where they will be available if required.

This revised contract replaces the 1951 contract at present in force but which expires on April 1.

To co-ordinate and unify the industry and to set forth the responsibility to one another of the grower, shipper and sales agency, the three-party contract was first devised in 1942. Since then with slight revisions it has been renewed every three years. The 1945 model is essentially the same as the first one to appear.

On instructions from the annual convention held in Vernon, in January, 1953, the executive of the BCFGA appointed last summer a contract committee. Its chairman was A. G. Desbriay, and its two members were E. E. Ellison and Sam Pearson. The committee's recommendation was in the hands of local secretaries before the 1954 convention. At the convention in January, in Penticton, the proposed new contract was carefully considered and approved by the delegates.

GRASPING the steering wheel with one hand, Charlie Hancock is trapped in his car after it was squeezed between two street cars in Washington. Hancock suffered only minor injuries.

## PEACHLAND NOTES

Local recreation commission met on Tuesday, March 16, in the Municipal Hall to appoint officers and outline plans for a spring and summer community recreational plan.

J. Pantone, regional consultant from Kelowna, was present to assist the commission in getting organized and answer questions. Mrs. George Topham is chairman and C. Parker, secretary.

Miss Gail Witt, who at present is attending UBC, is home for a few days.

The May 24 committee comprising members from Westbank and Peachland met on Wednesday, March 17, to discuss plans for 1954 celebrations. Officers elected were B. Ungwin, president, Mrs. D. Ruffie, secretary.

Mr. and Mrs. Dick Smith were recent visitors in town.

The Peachland Athletic Hall Association held their annual meeting on Wednesday, March 17, in the Municipal Hall. The present executive suggested that the municipal council take over the hall and be responsible for it. After much discussion and a reading of the association's by-laws it was decided to seek legal advice as to the status of the present members and then to call another meeting and thrash out just what is to be done with the hall.

The Full-Paid Committee under the patronage of the Women's Institute held a meeting at the home of Mrs. J. Cameron on Wednesday, March 17. Representatives of the BCFGA and P-TA were present. Many changes were made in the entry list for 1954.

The regular meeting of the local P-TA was held on Thursday, March 18, with a very good turnout. Mr. Parker's room won the prize for attendance. The evening ended with a social evening of cards with Mrs. Blower and Miss Ede having high score and Mr. Spence and Mrs. Turner consolation. A dainty tea was served by hostesses Mrs. Shimmy, Mrs. Spence, Mrs. Whinton and Mrs. G. Topham.

The Women's Institute held a social evening of cards on Friday, March 19, which was enjoyed by all. Prize winners were, high, Mrs. Fulkus and Mrs. M. Witt. Men's high, O. Adams and A. Chidley.

A Midwest rubber company has announced development of a chemical for controlling quack grass — a hard to kill weed.

## NEW PROOF THAT MILLIONS CAN END THE NEED FOR LAXATIVES

—find relief from constipation this safe, natural way—without the injurious effects of repeated laxative use.

With all the progress of medical science over the past 30 years, authorities say there is no longer any reason why irregularity should be our most widespread human malady.

Nor is there any reason for developing the habitual use of harsh laxatives—of doing with one preparation after another in the vain hope of finding, in some potion or pill, the "secret" of lasting relief.

Long-continued study of the problem has shown that one of the most common causes of irregularity is lack of bulk in the diet. And when this is the case, the common-sense correction is to be found not in the drug store but in your food store!

IT HAS LONG BEEN A MEDICALLY RECOGNIZED FACT THAT NATURE HAS PROVIDED, IN THE NATURAL FOODS MEN WERE INTENDED TO EAT, ALL THE ELEMENTS NECESSARY FOR THE LIFE-LONG AVOIDANCE OF CHRONIC CONSTIPATION.

One of these elements is natural fibrous bulk, or vegetable cellulose, which normally and naturally aids the rhythmic process of elimination.

In no natural food is this natural bulk so ideally found as in the outer layers, or bran, of the whole wheat kernel which, as you know, is lost in modern milling.

Because of the known value of bran in promoting regularity the Kellogg Company has produced a complete, whole bran—with nothing taken away to lessen its effectiveness—sold under the name of Kellogg's All-Bran, the natural laxative cereal. How effective is All-Bran? This has

been demonstrated in a series of systematic clinical studies reported in leading medical journals.

In one study, 135 people with known delayed bowel function were given one ounce of All-Bran daily for one week. They were studied clinically and with X-ray with tests made before, during and after they ate the All-Bran.

OF THE 135 PEOPLE, 107 SHOWED DEFINITE CLINICAL IMPROVEMENT IN JUST 7 DAYS.

IN A FOLLOW-UP STUDY, BETTER THAN 6 OUT OF EVERY 7 PATIENTS WHO WERE GIVEN ALL-BRAN IMPROVED.

The greatest advantage of All-Bran is that it corrects the cause of irregularity due to insufficient bulk. Chemical or drug-type laxatives, on the other hand, are intended only for overnight relief of a temporary stoppage.

When people use these products habitually—in a way that laxative makers never intended—they punish their digestive system in a way that nature never intended. Instead of correcting the cause, they often actually make their condition worse.

If you think you must take a laxative preparation occasionally, do so. But do it wisely. Read the instructions completely. AVOID EXCESSIVE USE. But for natural and lasting relief put your trust in nature. Just eat daily a one-ounce serving of All-Bran for breakfast and drink plenty of water.

This All-Bran plan has helped millions to re-establish and to maintain healthful regularity. Why not you?

# The Women's World

Dip fish fillets in beaten egg and cornmeal, then fry, turning only once during the cooking to keep fish from breaking.

**Pan Fried Fish**  
Cut fillets into serving sized pieces and wipe dry with cheese cloth. Dip each piece in beaten egg then cornmeal. Fry in a pan with very hot fat.  
**Baked Fillets with Sour Cream**  
Thin slices of lemon and onion 1 to 1 1/2 lbs. fish fillets, or 2 lbs. fish steak 1" thick, salt, pepper, 1 cup sour cream, paprika.

## Okanagan Falls Women's Institute Observes 33rd Anniversary This Month

### Sixteen Members At Meeting Of St. Saviour's W.A.

The fourth meeting of 1954 for St. Saviour's Anglican Church Women's Auxiliary, Evening Branch, was held last week at the home of the president, Mrs. D. E. McFarlane, with sixteen members present. The treasurer's report submitted later recorded 24 members had paid fees for the current year.

The main business of the evening was receiving nominations for the forthcoming Kootenay Diocesan W.A. election. Several names were suggested for the various offices to be filled at the elections, but the nomination paper will not be duly filled in until the next meeting, so anyone wishing to make a nomination can do so at this time. Members were requested to canvass for more rummage for the forthcoming sale to be held April 3 in the parish hall, and anyone wishing to have rummage collected is asked to call Mrs. McFarlane at 5696.

At the close of the meeting, Mrs. O. E. Schjoldt and Mrs. W. G. Haskett assisted Mrs. McFarlane in the serving of refreshments.

**EASY COLOR MATCHING**  
After you have finished painting a room a different color, don't clean the brush until you have brushed some of the color on to a piece of paper or cardboard. Tuck it in your handbag as a ready reference when you go shopping for new drapery or upholstery fabrics.

**COLORFUL GARBAGE CANS**  
Garbage can in color are the newest, item available to home-makers who want to dress up the house. If Midwest housewives buy enough color cans, they will be placed on sale nationally.

A mattress should be aired daily, turned and vacuumed or brushed once a week.

## Full Agenda At Meeting Of Summerland Institute

### The Recipe Corner

"The air force now knows that correct flight feeding is an integral part of its weapons system, and that it has a major effect in the operational efficiency of flying personnel."

This dramatic statement was made at the recent Cook Book conference by Edythe Robertson, chief of the Air Force Feeding Section of the U.S. Air Force.

**Important to Housewives**  
It has special significance for homemakers, because it is striking proof of the need for the correct food balance to keep the body at the highest point of efficiency. Foods that tend to produce abdominal disturbance are handiworks and cause expansion of gases in the digestive tract. Such pressure can cause cramps which interfere with digestion, and, in turn, produce intense discomfort, heartburn and dizziness.

**In High Altitudes**  
On high altitude flights, the consequence of gas expansion is greatly increased to the point where it can "even cripple an ace, abort a mission, or give the enemy a fatal advantage."

To avoid these dangers, Mrs. Robertson said this answer: "Well-balanced menus high in protein content; elimination of excessive carbohydrates and fats, high residue and overly spiced foods."

**DINNER PATTERN**  
Foods should be combined for balance, compatibility, appetite and eye-appeal, and cooked plainly for digestibility.

First course should be fruit or juice, a light soup or tossed salad; follow with a protein-rich entree of meat, fish, poultry, eggs or cheese; a choice of potatoes, rice or high-protein macaroni; a cooked vegetable; a serving of enriched bread with butter or margarine; and a dessert, such as fruit compote, gelatin or custard, and tea, coffee or milk.

**TOMORROW'S DINNER**  
Pineapple Juice  
Celery Pickles  
London Broil Maitre d'Hotel  
Mashed Potatoes  
Panned Carrots  
Whipped Topping  
Coffee Tea Milk  
All Measurements Are Level  
Recipes Serve 4 to 6  
Apple-Plum Crisp: Slice 3 medium sized peeled cooking apples. Add the contents (1 lb) can plums, drained. Add 1/4 cup brown sugar and 1/4 teaspoon cinnamon. Arrange in a buttered or margarine 9-inch pie plate. Add 1 tablespoon lemon juice and half the plum juice. Then make the crumb topping and spread over the apple-plum mixture. Bake 35 minutes in a moderate oven, 375 degrees F., or until the apple is tender and crisp. Serve warm or cold, plain or with a whipped topping.  
Crumb topping: In a small bowl, combine 1 cup uncooked rolled oats, 1/3 cup brown sugar, 1/2 teaspoon salt, 1/4 teaspoon additional cinnamon and 1/4 cup melted butter or margarine.  
The Chef's London Broil Platter  
To serve this plank-style, arrange thin slices London Broiled flank steak on a heat-proof platter. Surround with baked cheese crumb stuffed tomatoes, browned buttered string beans, cauliflower amandine, and a garnish of parsley.

**TOOTHPICK FOODS**  
**TEMPT BOY TO EAT**  
Ever notice how children are fascinated by the sweet-meats, pierced with toothpicks, that you serve to guests?  
One reader used this observation to improve her boy's appetite. When he's disinterested in his lunch, she serves him squares of cheese, pieces of meat, strips of carrots plus crackers and bread squares with a favorite spread. A cup of soup or cream adds a hot touch to the lunch.

**ACIDS CLEAN POT**  
Boiling acid foods such as tomatoes and rhubarb in aluminum pots is the easiest way to keep the utensils spotless. Harsh alkaline soaps and cleaning powders darken aluminum surfaces.

**Linen Shower Honors Miss Beryl Robertson**

SUMMERLAND — Mrs. M. Ritchie, Mrs. Dorey Wilson and Mrs. Ralph Blewett entertained recently at a delightful linen shower to honor Miss Beryl Robertson who is to be married in California in April.

The party was at the home of Mrs. Ritchie who had as dinner guests prior to the event Mr. and Mrs. J. Gordon Robertson, their daughter, the honoree, and Miss Gweneth Atkinson.

The lovely gifts were presented in a miniature house with a replica of a bride and groom beside it.

Others invited were Mrs. E. H. Bennett, Mrs. W. R. Powell, Mrs. J. L. Stevenson, Mrs. Paul Charles, Mrs. H. J. Wells, Mrs. J. J. Blomert, Mrs. George Henry, Mrs. Horace Read, Mrs. H. Thornthwaite, Mrs. Frank Kurda, Mrs. E. Graham and Miss Nan Thornthwaite.

## Penticton Firm Bids Contract At Kelowna

KELOWNA — A Penticton firm has tendered for mosquito control work here.

City Council received and turned over for study to Alderman R. F. L. Keller a tender from L. T. Bartlett Ltd. of Penticton for mosquito control work from April to August 31.

The Penticton firm quoted a price of \$1,895 for the five-month job in an area extending three miles from the city post office, in addition to three lakes, and swamp areas on the mountain west of Glenora.

Council had earlier received a tender from Orvel Curis of Kelowna, quoting a price of \$2,150 for the work.

Both tenders will be studied by Alderman Keller.

## Two Penticton Hockey Fans Fined As Aftermath Of Vernon Assault

VERNON — An incredible incident following the March 15 hockey game in the Penticton-Vernon playoff series was described in magistrate's court when Charles Malsoncuve and Daryl B. Wilkins, both of Penticton, were convicted of assaulting George Duddle of Vernon and carrying out wilful destruction of property.

The Penticton pair, fans homebound after their home team had beaten the Canadians 5-2, were alleged to have administered a severe beating to Mr. Duddle, damaged his automobile and finally thrown him through a plateglass window of a 32nd street auto dealer.

Before Vernon magistrate Frank Smith, the men from the south were fined \$107 between them on four charges. The court also ordered them to pay the cost of repairing damage to the car and the window.

Mr. Duddle told the court that he was sitting in his car on 32nd street, south of Barnard Avenue, sometime after the hockey game. An auto in which the defendants were travelling approached from the north and stopped just ahead of his vehicle. When one of the defendants left the southbound car, Mr. Duddle momentarily switched on his lights.

Then, said Mr. Duddle, Malsoncuve and Wilkins approached his car, smashed the radio antenna and turn indicator, dragged him from the driver's seat and beat him up. He suffered both eyes blackened and numerous bruises and other minor injuries. Then they threw him through the dealer's window.

Mr. Duddle said he was not at Monday night's game and had never seen the accused before. He was at a loss to explain what appeared to be an unprovoked attack.

According to RCMP, another car arrived on the scene just as the defendants were driving away, chased them along 32nd Street, obtained the license number and reported it to the police. Police radio contacted a patrol car some miles south on Highway 97 which intercepted the fleeing attackers.

Malsoncuve and Wilkins were arrested, brought back to Vernon and lodged in the cells here pending trial. Both pleaded guilty to all charges, except that Wilkins denied smashing Mr. Duddle's aerial. He was, however, found guilty on that count.

## Relief Map For PNE Of Okanagan Interest

SUMMERLAND — Of interest in the Okanagan is the \$50,000 relief map which is now being assembled and will be a permanent feature of the new B.C. building on the PNE grounds.

The map is the work of George P. Challenger, internationally-known cartographer, who lives in Vancouver. Mr. Challenger is the father of Mrs. David Mann, of Summerland, and his work has special interest here.

This unusual project took 34,686 man hours over a seven-year period and covers a total area which is close to 526,300 miles. It measures 80 by 76 feet and on it the proposed route of the PGE extension and other developments throughout the province may be readily seen.

Japan leads the world in fisheries production with an average of almost three million metric tons of fish a year. Next are the United States with 2.5 million, Russia two million, and the United Kingdom and Norway 1.1 million each.

A ROLLING "BATTLESHIP" is being tested by the U.S. Army on the beaches of LeVerdon, France. These two photos give an idea of the size of the giant amphibious landing craft. It has four tires the size of the one at left which dwarfs the U.S. and French Army officers inspecting it. Each wheel has its own motor, which also turns twin screws for pushing the craft through the water. The craft has a speed of seven miles per hour on land and 10 m.p.h. in the water when carrying a 60-ton load. The vehicle has already proved its seaworthiness by crossing the Atlantic under its own power.

## Facts About Cancer

Behind the clack of this typewriter you can hear a muffled buzz of voices. The twelfth annual meeting of the B.C. Division of Canadian Cancer Society is in progress now.

While committee reports are being read to the audience of approximately 180 men and women from 59 cities and towns in B.C., perhaps we can cavedrop and pick up a few highlights.

More than 91c. of each one of the \$239,000 collected during last year's Conquer Cancer Campaign were available for use in the society's program.

Fifty-nine units of the B.C. Division exceeded their 1952 campaign totals last year; 39 established their "highest-ever" records.

In three years a 61 percent increase has been shown in the money collected outside Vancouver.

Now, think of this... just for a moment. The people in this province are scattered over wide stretches of land. So the '53 campaign results show a good many miles must have been rolled up in walking, riding, driving, and in some cases, rowing to collect that money.

It's that spirit... that willingness and determination to get the necessary funds for cancer control throughout British Columbia... that gives scientists the weapons to wage a strong and successful battle against cancer.

Five research projects in British Columbia... costing more than \$21,000... were sponsored by the B.C. Division during 1953; and — high compliment to our R.C. scientists — the national body for cancer research in Canada, the National Cancer Institute, invested nearly \$27,000 in other research projects being conducted in this province.

The mails are bringing more and more requests for cancer "forums" these days. So far, we have 15 enquiries into the possibilities of holding panel discussions in public auditoriums throughout the province.

The doctors in these 15 towns are now being asked to get up the panel of doctors. And, if these doctors request it, the division will ask a Vancouver doctor connected with work on cancer to attend the discussions.

So far the Chilliwack Unit of the Society has held a panel discussion... and, incidentally, more than 400 people left their homes that night to hear some facts about cancer. Others with definite dates are Powell River, Richmond, Burnaby, Port Alberni, Duncan, Oliver, Kelowna, Quesnel... all scheduled within the next five weeks.

QUESTIONS AND ANSWERS  
Q. Why are periodic examinations of value in the control of cancer?

A. The earlier the treatment in certain forms of cancer the greater the chances of cure. By the periodic examination cancer may be found in its early stages when there may be no symptoms or signs that call the patient's attention to his condition.

Q. How long is it safe after suspicious symptoms appear before consulting a physician?

A. Delay is unwarranted. Delay is always dangerous.

One hundred and thirty-one mills make pulp and paper.

## City Teen Towners Host Convention

Penticton Teen Town put Pen-  
ticton back on the Teen Town  
map, the map they started ten  
years ago, as they acted as hosts  
for the Okanagan-Mainline Dis-  
trict Teen Town Conference held  
March 12 and 13.

It was in Penticton in 1944 that the organization known as Teen Town was first thought up, and it was here under the leadership of Mrs. Alice Leir and Jack Hutchings that the teen age movement first got its start.

The local teen-agers proved to their visitors that although they lost their building, they had lost none of their spark.

At this conference consisted of delegates from all the member groups of the Okanagan-Mainline Teen Town District which runs from Kamloops to the border and includes Kamloops, Winfield, Falkland, Vernon, Kelowna, Peachland, Penticton, Oliver and Osoyoos.

Activities of the conference started off with a banquet tendered by the Penticton teeners held in the United Church hall on Saturday evening. Major J. V. H. Wilson, M.C., was the guest speaker at this banquet and he expressed his great pleasure in the way Teen Town had been respecting their privilege of the use of the Armouries. Mr. Wilson stated this privilege had been difficult to obtain, but he was sure that by their record now the teenagers here would have no trouble in maintaining the use of the hall every Friday night.

COKE PARTY  
The schedule continued with a "coke" party held at the home of the local teen town's adult advisor, Mrs. Leir, on Lakeshore Drive. This was followed by the delegates and hosts attending a special dance in the Legion Hall.

The main part of the conference took place on Sunday in the 100R hall when the business and discussion periods were held. Jack Hutchings, of Vancouver, provincial director of Teen Town acted as advisor during the extensive business session. The local teen town mayor, Lionel Hammett, acted as chairman for the session. Lionel is the immediate past president of the OMTTA.

Many reports were given on teen town activities. The first of these was given by the Kelowna delegation on a square dance clinic held in Kelowna on March 2 and 3. This was reported as being the most successful in B.C. as far as number of towns participating was concerned.

Mr. Hutchings stated that the instructors were pleased that the enthusiasm with the enthusiasm shown at this clinic.

The Kamloops delegation reported on the Mayors' conference to be held there April 21 to 24.

Discussion took place for a long period on the proposed changes necessary in the organization of Teen Town throughout B.C. as "Hutch" is resigning due to pressure of other activities after eight years of valuable service to this movement.

Many new Teen Town groups have been formed throughout the Okanagan since the last conference and much time was spent in giving these new groups advice on methods of obtaining a hall for their centre of activities, adult advisors and financial backing.

The most important points emphasized by the most progressive

group in the whole conference, the Kamloops delegation, was the enlisting of the support of city councils, leading men in the community, service clubs and the population of the town at large. The Kamloops group is in the final stages of building its own hall. Boys and girls went out and asked for and received help from everyone in the community. The large sawmills donated lumber, the carpenters donated much time, the city council loaned the property, tax free, and the people of Kamloops provided the rest of the funds.

The convention was amazed at this ambitious program but many delegates decided they were going to turn their stagnant building fund into something more useful — a building.

Vernon offered to hold the next conference in October.

Ted Gregson of Vernon was elected president of the OMTTA, Lionel Hammett of Penticton, vice-president, and Jean Beckert of Vernon secretary.

School Course  
On Animal Care  
Sought By SPCA

Possibility of forming a junior branch was discussed at the regular monthly meeting of the SPCA and a letter will be sent to the school principal asking that consideration be given to including "animal care" period in the curriculum. Idea would be to make children more animal conscious.

It was suggested that cruelty through ignorance would be sharply curtailed. Literature for such a period would be provided by the SPCA.

Another letter to the schools will deal with selling of baby chicks. SPCA officials stated homes had to be found for many of the chicks last year because parents of youngsters had no suitable place for them in the home.

Appreciation of work and co-operation from T. Swann, pound-keeper, was expressed and a letter to that effect will be sent to him.

Next meeting will be held April 14 in the Red Cross building at 8 p.m. New members will be cordially welcomed.

Retired CPR Engineer  
Dies At Local Hospital.

Tatford CPR engineer and former resident of Calgary, James Edgar Curswell, passed away last Friday in Penticton hospital, at the age of 59 years. He was born at Penhold, Alberta.

He is survived by two brothers, W. H. of Vancouver, Frank of Rocky Mountain, four sisters, Mrs. S. H. Brinsinger, Red Deer, Mrs. W. Campbell, Penticton, Mrs. J. DeBour, Vancouver and Mrs. I. Armstrong, Calgary, 10 nephews and nieces.

Remains were forwarded to Calgary for interment by Penticton Funeral Chapel.

### Legion Supports Local M.P.'s Stand On War Pensions

Penticton Branch 40, Canadian Legion, have wired their support to the stand taken by O. L. Jones, MP (Okanagan Boundary) regarding pensions of less than 50 percent.

At the present time, where a pensioner was receiving 50 percent pension at the time of his death, his widow gets \$100 monthly, but if a veteran was receiving less than that percentage his widow receives nothing. "This is obviously unfair," Mr. Jones said in the House of Commons, and suggested that the widow should receive at least half of what was received jointly by the pensioner and his wife before his death.

The Legion wire reads: "800 members of Penticton Canadian Legion strongly urge fullest consideration and protection for widows of disability pensioners who were in receipt of pension under 50 percent at death. The need for continuance of the pension in these cases is greater in the majority of cases."

Lacrosse was originated by the Canadian Indians many centuries ago under the name of bagatway.

ALBERT KUTCHTA, a Chicago butcher wears a worried look, as his new four-month-old lion pet, "Monte" caresses his head. "Monte" scratched and cut his master, when the latter tried to show the cat who was boss.

### HEALTH INSURANCE

...how millions of Canadians are voluntarily protecting themselves and their families against the cost of illness and accidents

While giant strides have been made by medical science in the past half-century, the cost of serious illness remained a very real problem for many Canadian families until quite recently.

The most generally satisfactory method of meeting this problem—health insurance—has been in existence for many years. But few people had this protection until 1940. Since then, their numbers have increased at a truly amazing rate.

Today, 5 1/2 million Canadians have voluntary insurance against the burden of hospital costs. Nearly 4 million enjoy protection against surgical expense. And about 3 million have the newest form of protection: medical expense insurance. Most of these people have acquired this protection in the last ten years!

Where did all these people obtain this much-needed help?

Mostly from insurance companies. Blue Cross plans, and medical care plans which are

sponsored by the medical profession. Others acquired protection from insurance co-operatives, fraternal benefit societies, employee benefit associations.

Keen competition among the various insuring agencies has brought a steady broadening of benefits and greater protection for an ever-increasing number of Canadians. Thus today most of the hazards of illness and accidental injury may be covered through voluntary insurance plans offered by one or more of these agencies.

This striking record of achievement proves two facts: It proves that Canadians have foresight and initiative in helping themselves to meet the unpredictable costs of accidents and illness. And it demonstrates the ability of insuring agencies to provide service that meets the greatest needs of the greatest number of citizens.

The Life Insurance Companies in Canada are proud that they have been able to provide a large share of this vital service!

**YOURS FOR THE ASKING**—The new booklet, "Financing Health Services in Canada," this informative 21-page booklet outlines the advance of modern voluntary health insurance plans, and shows how they complement government health services in all parts of the country. For a free copy, write to The Secretary, Joint Committee on Health Insurance, 302 Bay St., Toronto, Ont.

### Newest Type Sleeping Cars On CNR Okanagan To Vancouver Run

Two of North America's newest railway sleeping cars are now in service between the Okanagan and Vancouver.

According to W. V. Brydson, Jack, district freight and passenger agent, Okanagan territory, Canadian National Railways, the railway has placed two of its new 4-8-4 type sleeping cars on the overnight service to the coast.

Smartly dressed in the CNR's new exterior colors of green, black and gold, with maple leaf monogram for and on the sides, the first of the new cars arrived in Kelowna on March 8, and have been on the regular service since then.

These new cars provide a greater variety of sleeping accommodations than the older cars they are replacing. The 4-8-4 designation means they contain four sections (upper and lower berth) four double bedrooms and eight duplex roomettes.

Among many new features on these cars, and never before seen on railway cars in Canada, are the new coil springs and stabilizers which prevent swaying while the train is in motion.

One feature which travellers will appreciate is the ladder which remains attached to each upper berth in the open sections. It will no longer be necessary to call the porter when it's time to leave the berth. The ladder disappears during the day when the berth is closed.

### KEREMEOS

KEREMEOS — Mr. and Mrs. J. C. Clarke visited their son-in-law and daughter, Dr. and Mrs. W. J. Rowe and their baby son, Jeff, recently. They were accompanied by Mrs. Lee Smith, upon their return.

Mrs. D. G. Cordelle and her son, Ian returned recently from Whitby, where they had been visiting Mrs. Cordelle's parents, Mr. and Mrs. S. Sedman.

Mr. and Mrs. J. S. Sykes and Mrs. F. Tesson were amongst those who attended "Open House" in Penticton High School on Friday.

Mr. and Mrs. H. C. McGuffie were visitors at the home of Mrs. McGuffie's brother and sister-in-law, Mr. and Mrs. G. R. Clarke of Kelowna.

A panel discussion for "Men Only" in the library of the Similkameen Junior-Senior High School on March 10 was followed with interest by those present when the following members of the panel — three high school students: Carl Larroth, Herman Forner and Curtis Fox and three adults: Messrs J. Lamb, C. Finch and W. Hase discussed and expressed their respective opinions on the topic—"Should University Education be made available to a high school graduate in the same way that high school education is now made available to an elementary school graduate?" F. E. Tesson acted as moderator and the discussion brought out many interesting points of view. Two films were shown prior to the discussion and refreshments were served for a small charge by the P.T.A.

An unusually large number of interested parents and residents from various points of School District 16 visited the Elementary and Similkameen Junior-Senior High Schools here on the occasion of "Open House" last week; visitors attended classes and listened to classes in session. After dismissal of classes an excellent tea was served by the Parent-Teachers' Association under the able convenerhip of Mrs. Doug Parsons and Mrs. Bill Davidson. Mrs. L. Pouch was the winner of a lovely door prize donated by Mrs. D. Parsons. During the tea, the first annual fashion show sponsored by the Home Economics classes, which are under the tuition of Miss Ruby Schaffer, proved a success. The garments modelled by the girls of grades 7, 10, 11 and 12 were made during the fall term. Students of grade 12 were in charge of the fashion show with the following acting as — Chairman, Dianne Neal, head of the decoration group Gwen McGuffie; responsible for the musical background, Beverley Boulton; commentator, Shirley Harris; the remainder of the class filled wherever and whenever necessary. The show was divided into four main sections; afternoon and street wear (grades 11 and 12); practical wear (grade 7); school skirts (grade 10); party dresses (grades 11 and 12). Music was selected to complement these four main divisions. Prices of each class of garment was announced in order to emphasize the economy of home sewing. At the conclusion of an interesting afternoon the Junior Band, under the baton of Lloyd Rees, displayed splendid results of five months' training, much enjoyed by those present. The P.T.A. reported excellent financial results of the tea.

### Summerland Players, Singers Rehearsing New Production

SUMMERLAND — Summerland Singers' and Players' club is working hard on its production of "The Yeomen of the Guard" which is to be presented soon here and in Penticton and Kelowna.

This light opera was first produced at the Savoy Theatre in London on October 3, 1888.

With Stan Gladwell, who took over as producer in 1948, and W. A. Stuart, musical director, the collaboration has been remarkably successful and the Summerland plays have gained fame beyond the confines of the Okanagan.

In the cast this year are Clive Atkinson as Col. Fairfax; Harry Howls, Lt. of the Tower; Ethel McNeill, Penticton; Elsie Maynard; A. K. Macleod, Jack Point; Jack Rorke, Jack Stocks, Penticton; Leonard Meryll and Sergi Meryll, respectively; Flora Bergstrom, Phoebe; Delmer Dunham, Wilfred Shadbolt; Lillian Fleming, Dame Carruthers, and Shirley Letts, Kate.

Members of the Penticton Orchestral Society always give valuable assistance.

### Summerland Box Factory Re-Opens

SUMMERLAND — The Summerland Box Factory opened on Monday after being closed since January 20.

Sixty men are back at work after the shutdown which is the longest since the Stuart family have taken over operations.

Both box shooks and lumber is being cut.

### Former Resident Dies In New York

Friends in Penticton will be saddened to learn of the death in New York earlier this month of Leonard "Scotty" Crystal, at the age of 46 years. He was working for an optical firm at the time of his death.

Mr. Crystal, who was born in Edinburgh, Scotland, was educated in Penticton and resided at New York for the past year.

He is survived by his wife, Helen, four daughters and his father, of Olympia, Washington and a sister, Diana, of Seattle. Funeral services were held at New York.

Scotland's Loch Ness popularly believed to harbor a "monster" is 750 feet deep in spots.

Don't forget!...

### Parathion

when used to control one insect, controls others present at the same time. This is real economy and efficiency.

## There's No ECONOMY

Lowest priced car of the low-priced field! Because Chevrolet out-produces and out-sells every other car line in Canada, your Chevrolet can be produced at lower cost, and the savings are passed on to you. Yes, Chevrolet brings you year after year the finest quality at the lowest prices — at Chevrolet prices, the lowest of all!

Chevrolet dependability is unsurpassed by any car! Nothing beats famous Chevrolet dependability. Many large companies choose Chevrolets for their entire sales force because Chevrolet's reputation for reliability assures them these cars will be faithfully on the road all day every day.

Highest trade-in value in the low-priced field! Yes, actual used-car figures show that Chevrolet consistently commands a higher proportion of its original price upon re-sale than any other car — a fact you can verify for yourself by checking used-car prices in your newspaper. This is but one more indication of Chevrolet's superior value!

Chevrolet's maintenance cost is naturally lower! When it comes to down-to-earth dollars and cents maintenance costs, you save on service when you drive Chevrolet. And when it comes to convenience, remember that no other car can match the service facilities of the huge Chevrolet Dealer network, ready to serve you wherever you are, from coast to coast.

Chevrolet offers unmatched economy of operation! Your high-compression Chevrolet engine — highest in its field — squeezes extra miles out of every gallon of gasoline you buy. On top of that, Chevrolet gives you the extra efficiency of overhead-valve design, pioneered by Chevrolet and exclusive in the lowest-priced field.

Chevrolet's engineering excellence provides the sound basis of Chevrolet's popularity. Chevrolet's dependability wins new friends year after year. Last year, consumer preference for Chevrolet gave this car a huge margin of 20,000 units over the nearest competitor. This is indicative of Chevrolet's extra value, when you buy, when you drive and when you trade!

There's no car like Chevrolet when it comes to sales leadership! And that's because Canadians realize that there's no economy like Chevrolet economy, when it comes to owning a fine car. Chevrolet gives you all the best for much less than any other low-priced Canadian car! It gives you tried and true economy... economy of buying, driving and trading... economy that is unmatched. And Chevrolet gives you power, comfort and safety that you can't find anywhere else in Chevrolet's field. Before you buy, see and drive a brilliant new 1954 Chevrolet... your best buy by far for '54!

## Rid Your Home Of Termites

For the next month or two, a lot of people will have their first experience with termites — and they won't like it.

It isn't that the termites do their damage at this time of the year and no other. It's just that this is the most likely period of detection — for it's during the months of March and April that some of the termites come out into the open for a brief period and shed their wings. When these silver-colored wings are found on the floor of any part of the house, it's time to begin investigating — not time to get alarmed. First of all, your house isn't going to begin falling down before you can do anything about it. In fact, it isn't going to fall down at all. And secondly, what appears to be termites often turn out to be nothing but flying ants.

**ABOUT TERMITES**  
We'll get around to the solution of your problem, if you have one, in a moment. We'll start, however, by telling you something about this insect that causes so many million dollars worth of damage to homes every year. A termite is blind. It lives on cellulose, which means that it will eat anything that contains pulp. It lives in the soil, preferably damp soil, and will not move from the ground to wood if exposed to the air. Thus, a termite will move from the ground directly to the inside of the structural beams of a house. If, however, the wooden part of

the house is away from the ground, such as on a high concrete foundation, the termite has a problem. He will not crawl from the ground up the concrete into the wood, as another insect might do. So he builds tiny vertical tubes of earth from the ground to the wood. These tubes rest on the concrete part of the house and act as a sort of bridge or tunnel between the soil and the wood. Although these tubes are very small in diameter, they can be seen with the naked eye. That's an important point to remember. We'll go over it.

The termite lives in the soil and feeds on wood. But we cannot get from the soil to the wood if there is anything in between unless he builds small tunnels which are visible. We said that it is important, and here's why: periodic inspections by the outside of your house will disclose whether termites are building these tunnels. Discovering them in time can save you a lot of trouble later on.

### IT'S A PROBLEM

All right now, let's get back to the problem that confronts you if you suspect that termites have gotten a foothold in your home. This suspicion may arise from the presence of those silver wings mentioned, from the discovery of the tunnels or because you found the inside of posts, girders or other woodwork eaten away. Remember, it's the inside of the wood that the termites eat, not the outside. Pushing an ice pick into a beam is one way of discovering whether the inside has been destroyed. Sometimes a condition of that sort is discovered accidentally when driving a nail into a post.

If you've found silver wings around, you want to know whether they are termite wings or flying ant wings. Brush some of them into an envelope and take them to an exterminator or some one else who will be able to give you the answer. Occasionally you may find a few dead termites or flying ants where the wings are. To tell the difference, examine one of them. The termite has a body that is thick from end to end. The flying ant, on the other hand, has an hour-glass shape; thick at one end and thin at the other, but with a very tiny almost invisible waist. We tell you this just in case. Actually, very few persons ever see a termite.

When convinced that termites have begun an invasion, you have virtually no alternative but to call in a professional. An exterminator not only can rid your premises of termites; he can prevent them from making a reappearance.

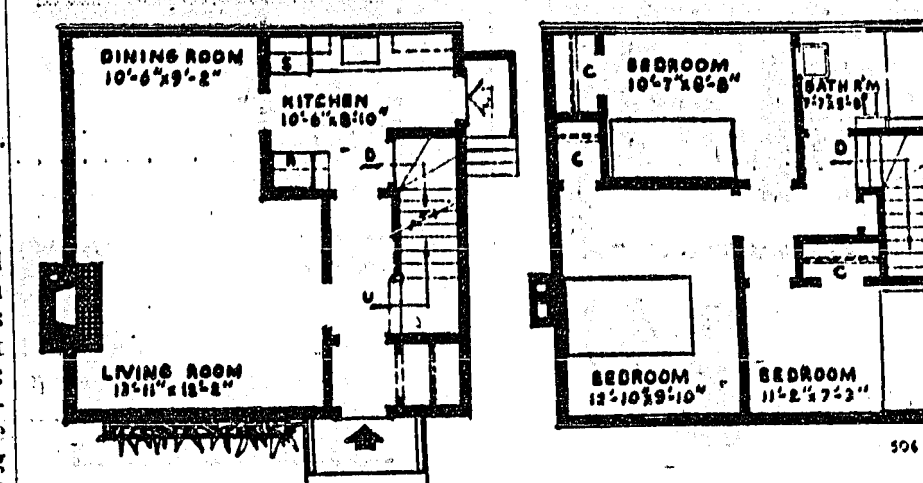

But detecting the presence of termites and getting rid of them are important only after the trouble has occurred. Your main idea should be to prevent the trouble — to keep the termites away from the wooden parts of your house. It can be done with the expenditure of some time, some effort and some money. It will be well worth all three.

### USE CHLORDANE

Over the years, many kinds of poisons have been tried in the fight against termites. Some have caused harm to shrubbery. Some have had bad odors. And some just have not worked properly. One chemical which most experts recommend is chlordane — which is widely used against Japanese beetle grubs. It is mixed with water, is very effective and does not harm vegetation.

For houses without basements, treat the ground under them —

## N.H.A. DESIGN-OF-THE-MONTH

This two-story house will be of interest to a family desiring a home which combines aesthetic appeal with economy of construction. The square plan employed means important savings in construction costs as there is a minimum of wall area and corners for the floor area provided. Another advantage of this design is that the house could be built on a narrow lot.

The combined living and dining rooms give a sense of spaciousness while providing a pleasant view of the rear garden from the dining area. However, if greater privacy is desired, the dining room could be partitioned off as a separate room. The fireplace is always a popular feature and, especially in the winter time, becomes a focal point for family activities.

The flower boxes beneath the front windows and the embossed wood effect at the sides of the doorway and upper window provide a satisfying touch of colour and decoration to the exterior. Vertical wood siding is used on the upper story and horizontal wood siding on the lower.

The floor area is 979 square feet and the cubic measurement is 13,050 cubic feet. Exterior dimensions are 22 feet by 22 feet. Working drawings for this house, known as Design 506, are available from Central Mortgage and Housing Corporation at minimum cost.

## Plywood Panels Are Popular For Exterior Applications

Because the large sheets of simply construction and reduce handling costs, weather and waterproof Douglas fir plywood panels are becoming increasingly popular for exterior applications.

Contractors and builders like them for their labor and time saving characteristics. While architects appreciate the flexibility of design and the wide range of exterior finishes made possible by the unique structural features and interesting texture of the big panels.

Exterior panels may be applied over Douglas fir plywood sheathing or nailed directly to the studs as a single exterior finish. Plywood engineers recommend a minimum thickness of 1/2-inch when panels are used without sheathing and a row of horizontal cross blocking should be used between studs halfway up the wall. To make the joints weather-

tight they should be sealed with mastic or covered with moulding. While there are as many ways of finishing plywood joints as there are styles of architecture, a wide range of interesting treatments may be obtained with variations of the standard groove, plain or moulded batten, and the lap joint or horizontal siding treatments.

When applying paint or varnish removed over an old piece of furniture, it is often difficult to get results in the part of the wood which is carved or otherwise embellished. Scraping off the remover as is done on a flat surface, only damages the design. Instead of this, use a clean suede brush for rubbing the ornamental part. It may take a bit longer, but it will make a neater job.

### SOAK THE GROUND

Occasionally you will run into some problem in getting the chlordane into the ground close to the house, where it belongs. It is then you will have to exercise a little ingenuity, keeping in mind that the objective is to soak the ground with the mixture no matter how you do it. For instance, let's suppose you have a driveway of concrete. A driveway which is flush against the house. You can't dig up the soil, but you must get the chlordane into the ground. One solution is to bore holes into the concrete right at the point where the driveway meets the foundation. Pour chlordane into these holes and you have solved the problem, since the chlordane will spread quickly once it gets below the concrete.

There are many other preventive measures to keep termites away, but most of them must be used when the house is being constructed. One of these is in the installation of metal shields at the top of certain types of foundations so that the termites will find it impossible to build their little tunnels properly. But that's a professional job and, that's a professional job and, that's a professional job, chlordane is the best preventive and the easiest to handle without technical knowledge.

## FIR PLYWOOD PANEL EDGES WIDELY USED

While wall joint treatment of Douglas fir plywood interiors depends largely upon the type of finish to be applied, the combinations of edge finishes and decorative mouldings is almost unlimited.

Commonest method of treating Douglas fir panel edges, particularly for wiped-down finishes or where solid color paint surfaces are to be applied, is the V-joint achieved by bevelling panel edges slightly with a plane before installing. Panels may be fastened with nails only, but a combination of gluing and nailing makes a better job. If the studs are not dry enough, nail plywood strips to the studs to provide a dry gluing surface.

For a wallpaper finish, joints may be filled with any good joint filler and the panels covered with a smooth felt paper or blank wallpaper stock using conventional methods.

The ease with which Douglas fir plywood may be cut and worked makes possible a wide range of panel replacements. Some interesting and simple panel arrangements are shown in the accompanying wall elevations. In planning interior paneling a basic principle is to commence at openings with vertical joints and divide plain wall surfaces into desired grouping of orderly forms.
